

BROTHER OF BETRAYED GIRL THREATENS LIFE OF BYRON

MOTHER AND FIANCEE SEEK MISSING YOUTH

Alameda Business Man Strangely Disappears

Goes to San Francisco With Friends and Does Not Return

ALAMEDA, March 30.—Frenzied almost to a state of collapse, Mrs. George M. Landsberg, the mother of Guy Landsberg, the young man who mysteriously disappeared from sight Monday night, in San Francisco, and Miss Leslie Grieg, the young society girl who is reported engaged to the missing youth, hurriedly left San Francisco in an automobile today in search of the 22-year-old boy who disappeared from his companions late Monday, and from whom no word has been heard.

With tears flowing and in an almost uncontrollable voice, Mrs. Landsberg said that she feared her son had met with disaster.

"He cannot be alive or he would let me know where he is," she cried. "He has never left his home for a night without telling me if he were going to be out until very late."

SEARCH BY DETECTIVES.

Miss Grieg is wan and pale from sleepless nights and anxiety over Landsberg's disappearance. Pinkerton detectives have been engaged by Mrs. Landsberg to search for the youth.

Mrs. Landsberg said today that her husband is in Alaska, and that she is alone in her search for the boy, except for the assistance of friends. Miss Grieg has not left Mrs. Landsberg's side since the youth disappeared.

Landsberg left this city for San Francisco after dining at his home Monday night. He was accompanied by Jack Mulvaney and H. L. Martin, a partner in the Landsberg business, and Police Chief Jacoby. The four visited nightclubs in San Francisco and were last seen at the Thalia dance hall in Pacific street. Mulvaney, who is said to have been the leader, and who had picked out the resort where they should spend the evening, stated today that they were standing at the corner of Pacific and Leary streets when he and Martin turned to talk to Landsberg and found him gone.

SEARCH IN CAFES.

"We looked around for him but he was not on the street and we couldn't find him at any of the moving picture shows or cafes where we had been," said Martin today. "We thought he had decided to return home early and were not worried until the next day, when his mother told us he had not come home."

Mrs. Landsberg said today that her son did not have a large amount of money with him.

"He had no financial or business worries and there is not the least reason why he should have disappeared," she said.

The Landsberg real estate office is at 1243 Park street. The Landsberg family is one of the most wealthy and influential in the city. Their home is at 1200 Bay street. Miss Grieg, who is said to be the fiancée of the youth, is the daughter of Mr. and Mrs. James Grieg, of Paris street. Both the girl and young Landsberg attended the Alameda High School, where the attachment was formed. They have known one another for several years. Miss Grieg is a member of the Alpha Sigma sorority. Landsberg was Sigma Phi Epsilon at High School.

Because they did not want the publicity, the Landsberg family did not notify the police of the boy's disappearance. Police Clerk Walter Jacoby, who was with Landsberg when he disappeared, refused to throw any light on the matter today, and said that he did not know where Landsberg was. He has not taken any active part in the search for the youth.

SNEATHEN DIVORCE GRANTED

Alleged Affinity and Extreme Cruelty Win Separation for Piedmont Woman

Alimony Refused, but Father Must Pay Toward Support of Two Children

Superior Judge T. W. Harris this forenoon granted to Mrs. Bertha A. Sneathen, of Piedmont, daughter of the late Frederick Senram, an interlocutory decree of divorce from William B. Sneathen, on the ground of extreme cruelty, hinging his finding in the case particularly upon the husband's alleged clandestine meetings after his separation from Mrs. Sneathen with Mrs. Hubbard, a widow and guest at the Athens Hotel. In this connection the court said:

"I am not at all in accord with the views of some married men that they are entitled to the same privileges with reference to other women that single men may enjoy with impunity."

Mrs. Sneathen was also awarded the custody of Georgina C. and William S. Sneathen, the minor children, who are both almost of age, and Sneathen was ordered to pay, beginning with April 1, \$30 towards the support of the daughter, who is one of Piedmont's society girls, and \$20 a month towards the support of young Sneathen, who earns a salary of \$40 a month in the employ of a San Francisco concern, and admitted in court that he pays nothing at home for his board.

REFUSED ALIMONY.

The court refused to allow Mrs. Sneathen alimony or to make an order requiring her husband to foot her attorney's fee. Judge Harris held that in view of the fact that the testimony had shown that Mrs. Sneathen was worth at least \$50,000 in her own right, under the law she was not entitled to this particular relief, although he did award to the wife all of the household furniture in her Piedmont home which, with the exception of about \$100 worth, according to the testimony, Sneathen purchased with money he either earned or that came to him from his father's estate.

When the case was called up again at 9:15 o'clock Attorney B. F. Bergen, representing Mrs. Sneathen, recalled his client to the witness chair and developed the fact that her husband was worth about \$8000 in his separate holdings, which represented an eighth interest in the estate of his father, consisting of unimproved real estate lying about six miles out from Pittsburgh, and then William S. Sneathen was called to the stand.

MEETS HIS FATHER.

The young man testified that on the evening of January 2 of the current year, while he was walking along Broadway, he was surprised to meet his father and a woman he did not know at Thirteenth and Broadway. This was subsequent to the separation of his father and mother. The witness said he spoke to his father and raised his hat. They were walking arm in arm, but the youth was not positive whether Sneathen had hold of the woman's arm or she was leaning upon his. Young Sneathen hurried home and told his mother of the incident. The witness said he never reverted to the matter again after telling with him about it. "Did your mother ever give you

BELOVED DAUGHTER CARES FOR POET FAMILY REUNITED AFTER 20 YEARS

Joaquin Miller, his wife and daughter, Juanita. The lower picture shows Miss Juanita Miller in the doorway of the Abbey, one of the buildings at the residence of Joaquin Miller, "The Heights." These photographs were taken yesterday afternoon by THE TRIBUNE'S staff photographer.

Joaquin Miller Is Happy Again at The Heights Insists That Girl Drives Auto That Carries Him Home

Joaquin Miller, aged poet, "child of Nature," is home again, once more among his cherished hills, his trees and his roses, sitting upon the stoop before a cottage that he himself built, gazing out from the secluded heights upon the cities, the bay, the ships and the hills beyond that through twenty-five years or more he has watched and studied and loved. Surrounded by his wife and daughter, he is happy, and with fresh air and sunshine in plenty he bids fair to enjoy for many years more the beauties that he reared about him and the magnificent panorama before him.

After nearly two months in the Fabiola Hospital, he was taken yesterday in an automobile, driven by Miss Lola Hall of Berkeley, and accompanied by his daughter, Miss Juanita Miller, to "The Heights," beyond Upper Fruitvale, where Mrs. Miller had preceded the party to make all in readiness for the poet's return. In spite of difficulties encountered on the steep hillside slopes, the destination was reached long before sundown and it was with the eagerness of a child he allowed himself to be assisted from the auto, through the rustic gate to an armchair that greeted him by the cottage door.

GREETING BY HIS WIFE.

Settling himself among cushions, he crossed his knees and feet, and said about him. His blue eyes brightened as he beheld the wonderful scene that lay before him. His wife stepped from the threshold and knelt at his side for the first time in twenty years.

"My Joaquin," she exclaimed in an ecstasy of delight, "How bright your eyes are and how well you look. Oh! I am so glad to be with you again."

Then she bent over the aged white-headed face and implanted a kiss. Juanita stood by and witnessed the reunion of her parents, her face bespeaking in fullest measure the happiness that swelled within her.

Sonoma Schoolgirl Scandal Links Names of Wounded Man and W. C. Nolan

Ethel Patrick Carefully Guarded by Parents; Fear for Breakdown

YOUTH ACCUSES WOUNDED MAN

"I do not wish to make threats. But when I start out to do anything I do it and travel fast. If Dr. Byron gets well there will not be room in this State for him and George Patrick at the same time, and I intend to stay here. There won't be any mistakes about it this time. I have information concerning this man that would cause him to be run out of Oakland. This is not the first case of this nature against him. Whether he lives or dies, my sister will be freed from his influence." Statement made by George Patrick, brother of Ethel Frances Patrick.

(By HARRY A. SULEY.)

The scandal brought to light by the stabbing of Dr. A. E. Byron by the father of Miss Ethel Frances Patrick, when the two were found in the Alhambra Hotel Tuesday night has unearthed a sensational case in which Dr. Byron was involved as one of the principals five years ago in Sonoma City, Sonoma.

The threat has been made by the brother of the girl, George Patrick, that he will revive the old scandal, and will bring into the light the trouble which made one of the gravest school sensations in the history of California.

Three school girls were involved in the affair, which was brought to light by Mrs. Nichols, of an association for the protection of young girls in San Francisco. The man in the case was Walter C. Nolan, principal at that time of a Sonoma City grammar school and now studying in the University of California for a degree.

Nolan visited the Patrick residence yesterday and told of the affair to George Patrick. He tended to throw the entire onus on Dr. Byron.

Asked concerning the affair today Mrs. Byron freely discussed the Nolan case.

BRANDS HIM COWARD.

"Dr. Byron is down, and this man is attempting to rehabilitate himself by striking at him now. Dr. Byron may die, but I am here to defend him from any such slander as this man is ready to pass out. He is a coward to attempt it now."

"Dr. Byron has his faults. He was wrong to have the relations he did with this young woman, but in that I consider them equally culpable. But Dr. Byron was never so immoral as to rob a cradle."

"That is what this man Nolan did, and it has been proved against him. If he wants to rake up that old scandal because he thinks Dr. Byron is now unable to defend himself, he will find himself mistaken in thinking that I am defenseless."

"I was one of the witnesses in the trial in the Nolan case. I remember clearly the testimony concerning his

Greeley, has taken his case to the highest state tribunal in a desperate effort to get him free. The appellate tribunal decided against the pugilist, but his counsel was determined to fight to the last ditch and a last effort was therefore made to circumvent the order of Judge Treadwell compelling the service of twenty-five days in the county jail for fast speeding.

## SUPERVISOR KELLEY'S PLAN GIVEN SUPPORT

### County Official Says That the Time Is Ripe to Push Subway Scheme to a Conclusion

A meeting was held in Alameda last Thursday night for the purpose of discussing the proposed subway under the estuary between Oakland and Alameda. Supervisor Joseph M. Kelley, father of the subway project, was present by invitation, and took part in the discussion. It was agreed by the Alameda committee that they would appear before the Board of Supervisors next Monday and ask that body to take preliminary action toward the construction of the subway.

At the last session of the Legislature a bill was passed and signed by the Governor, known as the tunnel bill. This bill provides that the Board of Supervisors should have the power to expend \$5000 for the purpose of making plans, surveys and specifications for the proposed subway.

The bill was introduced at the suggestion of Supervisor Kelley, who has been working on the subway proposition for the last six years. It looks now as though the subway is going to be a reality. It is conceded on all sides that it will be one of the best improvements to be made in Alameda county.

The Alameda people are particularly interested in the proposed improvement, and will do all in their power to try and make it an accomplished fact. The bridge which now crosses the estuary is already a back-saver, and it is unable to take care of the traffic. Hardly a day passes that there are not long delays in traffic because of the opening and closing of the bridge. Supervisor Kelley feels that the time is now ripe to push the improvement to a final issue.

"I think this improvement will be a great thing for Alameda county," said Supervisor Kelley. I have been interested in the proposition since its inception, and now that the Legislature has passed the bill giving the necessary power to proceed I believe that the board should take the matter up and proceed with the work at once. The merchants of Oakland and the people of Alameda are united in their support of the proposition, and are very anxious to have the subway built. I propose to do all in my power to have the matter brought to an issue at once."

## 'COMRADE' ROOSEVELT PLEASED WITH GREETING

### Colonel Likes Manner in Which Department Junior Vice-Commander B. A. Forsterer Introduced Him

SAN FRANCISCO, March 30.—Greeted with the informality of a comrade, and welcomed by those who fought side by side with him at San Juan Hill, and who, as he himself said, ate hardtack with him and were glad to get it, Theodore Roosevelt spent a half hour last evening with the Spanish War Veterans. This was the only invitation accepted by the Colonel from an organization and he departed from the rule which he had laid down for himself in going out of his way to address and to shake hands with the men in the cities about the bay who had seen service during the strenuous time of the United States' most recent war.

At precisely 5:30 o'clock, escorted by a rear guard of honor and to the lively strains of martial music, the renowned rough rider made his appearance at the veterans' hall on Duane avenue and took his seat upon the platform. For five minutes afterward the cheering from a thousand throats resounded through the building and when it had finally subsided, Past Department Commander H. H. Noland, in a few choice words, introduced B. A. Forsterer, the department junior vice commander, who was to introduce the distinguished visitor.

### WELCOMED BY FORSTERER.

"We have assembled this afternoon," began the commander, "for one single purpose, and there is no need for me to use unnecessary words with superfluous remarks. But on behalf of the Department of California United Spanish War Veterans, I desire to introduce a man whose name I hardly need to mention, who is known not only to us in our beautiful state of California and throughout our own United States, but to all the world and is loved and honored and looked up to. We have known him for years. He has served us and our country well. He has served us in the highest executive office in the nation, but he comes here today, not as a great world figure, not as a political leader and a former President of the United States, but he comes as one of our own comrades. I take pleasure in introducing to you our comrade, Roosevelt."

When the colonel stood up to make his few remarks he was again greeted by applause and cheers. When he began to speak it could be seen that he was touched by the nature of the gathering before him, and that he felt deeply the reunion with the comrades of former days.

"Comrades," he said, "I broke through the rule that I had made as to accepting invitations in but one case, and that was this case, for naturally you have a peculiar claim upon me. The members of my own regiment and those who fought side by side with me in Cuba are necessarily very close. When one has lain in trenches with a man, eaten hardtack with him and been side by side in the march with him and endured hardships with him, he is not only drawn to him in a peculiar way, but he gets to know him in a way scarcely parallel in any other condition of life. The organization of the veterans of the Spanish-American war illustrates just what we mean by our democracy, by our great Army of the Republic. In these organiza-

tions the test of comradeship is not the position a man held, but how he bore himself in that position. The organization of the Spanish War Veterans, as well as the veterans of the Civil War places all the men on an equality who did their duty in the positions in which they served.

### LIKED HIS INTRODUCTION.

"The spirit of genuine comradeship is not the rank or the position a man held, but it is the way he filled that position. I was introduced to you in the way I most like, as Comrade Roosevelt—not the ex-President, not the ex-colonel, but the man who did his duty in the position to which he was assigned. There are just two things upon which we may congratulate ourselves. When war broke out thirteen years ago the United States had but a small navy. Her position as a world power was regarded as doubtful. Nobody regards it as doubtful today. We have a first-class navy, and the army has been improved extraordinarily in efficiency, improved by what we who went to war did, and by the shortcomings which we found and overcame. Most of you, I suppose, served in the Philippines, while I served in Cuba. But we, all of us, found that what we didn't know would fill a pretty good-sized book. This was true not only of the volunteers, but of the regulars also. The individual troops were all right, but the corps and the divisions didn't have experienced officers. They hadn't had time to acquire the knowledge they needed. The principal topic of interest previously in the small posts where they had been scattered was the quarrel between the captain and the quartermaster as to the proper length to have a mule's tail.

### FORTIFY CANAL, HE SAYS.

"In the event of war we are much better fitted for it today than we were then. I am happy to congratulate you. I should say, congratulate us, on a couple of things that have been done as a direct result of the war. Our getting control of the Panama Canal was of great benefit to us, especially to the Gulf States and the Pacific Slope. There are a number of excellent people—I speak of the excellency of their hearts, not of their heads—that solemnly proposed that we shouldn't fortify the Panama Canal. Such a proposition is unsound throughout and absurd. It was one of the most thoroughly unpatriotic measures ever proposed in Congress. True, we have a treaty, but this binds us, especially in connection with the canal. No other nation is concerned with it. I am for peace, but for that peace which comes with self-respect."

The colonel consented to do something for his new friends at any time, especially in connection with the hand of every veteran present. For fifteen minutes, one after the other, he extended a hearty handshake to the former soldiers as they passed before him, especially congratulating the medal of honor men and several soldiers who are still in the regular ranks and who were present to greet him.

Samuel W. Backus is one of the old guard in the Republican party in California, having been a member of the assembly in the twenty-second session of the legislature thirty-six years ago. In 1880-81 he was adjutant general and subsequently postmaster of San Francisco for two or three terms.

## UNIONISM BEFORE MONEY, DECLARES JOHN MITCHELL

### TELLS WHY HE QUIT \$6000 JOB

Gave Up His Salary for Sake of Position, Says Labor Leader.

NEW YORK, March 30.—John Mitchell, former president of the United Mine Workers of America, in a statement to a New York Social organization, made his first public reply to the action of the union in ordering him to resign from the union or assign his \$6000 a year job as an officer of the Civic Federation. In response to this order he gave up his place in the Civic Federation.

"I believe my union has done wrong in this action," said Mitchell, "but to paraphrase an old saying, I declare: 'My union, may it be always right; but right or wrong, my union.' In the few days since I resigned from the Civic Federation I have heard it reported that some persons have said that my action was not a display of loyalty to the union, but rather an admission that I was in the wrong.

"I would require no high courage for me at this time to give up my membership in the union. It was a real hardship, however, to give up my work in the body that is trying to establish industrial peace. But I had no choice. I did not give up \$6000 a year for a little card. I gave up the money for a principle. When I had power to enforce similar edicts I ordered other men to give up their money. It would have been my last shame had I hesitated. I hope that my action might be an example.

"Nevertheless I am free to state that I think my union made a mistake. After all, it is few of us who do not make mistakes. I find some consolation that among the men and women who have known me personally the action of the convention is not endorsed. When I first became head of the union it was insignificant. Now it has a place of national significance."

#### LEWIS RETURNS TO MINES.

## OLD RECORDS DESTROYED BY FIRE IN ALBANY CAPITOL

### Loss Includes Papers Found on Major Andre, British Spy, and Grant of City's Site to Van Rensselaer

ALBANY, N. Y., March 30.—A complete history of New York State, planned by the New York Historical Society, and regarded by experts as one of the most important projects of its kind in recent years, will never be written. The fire in the Albany capitol has wiped out the ancient Colonial and Revolutionary documents which were to have furnished the basis for the work.

According to R. H. Kelby, librarian of the Historical Society, the loss is incalculable.

"There is no complete history of the State in existence," said Mr. Kelby. "It has not been written and now the priceless documents upon which it must have been based are gone.

"The loss is a most terrible thing. It is impossible to state any value for the destroyed documents. Their value is not to be determined. They simply cannot be replaced, and for documents of that kind a statement of a money value is an impossibility.

"The State has gotten out four catalogues of the various documents. These catalogues are in various libraries, but not copies of the documents of themselves.

"The various documents remaining from the days of the Dutch colonies were catalogued under one head, the English documents under another, and the land papers under a third. These last, of course, had a tremendous value.

"There were also in a fourth catalogue the Johnson papers relating to the Indian nations.

The library's collection of Americans was in many respects the finest in the world. Its irreplaceable treasures included the first charter of the County of New York in manuscript; the papers which were found on Major Andre; the first charter of Trinity church from the British crown, and the great collection of Clinton papers, the most personal documents of the Revolutionary Governor, containing many hundreds of letters from Washington, all are gone.

LAW LIBRARY GONE.

By many jurists the law library was considered the most complete in the country. The number of volumes in the library of Congress is greater, but a large proportion of that number is in duplicate. The State's collection of Colonial laws, including legislative broadsides that can never be replaced, was without question supreme in that field. One single volume, Brindford's Laws, was purchased a few years ago at a cost of nearly \$20,000.

There was a complete collection of legislative documents, including reports of Colonial and legislative commissions, which have no duplicates extant. These included the warrants and orders of the Governor and Council before the establishment of the legislative system prior to the Revolution. All these laws were in manuscript.

In genealogy and bibliography also, the library, with nearly a million volumes and pamphlets on its stacks, was the strongest in the United States. Its collection of educational reports was surpassed only by that of the United States Bureau of Education.

WAS CENTURY OLD.

The library was over 100 years old and the library school operated by the State in connection with it was the first of its kind in the country. The State has been going about for years begging for collections to be placed in its safekeeping in its supposedly fireproof building, and it was only the other day that all the original papers and records of the city of Albany, beginning with the grant to the original "Patron," William Van Rensselaer, were placed in the library.

Most legislators and users of the library supposed that the building was fireproof, although the librarians have repeatedly asked the legislature during recent years to provide a separate library building with adequate vaults for the protection of their treasures.

JOHN MITCHELL, former president of the United Mine Workers of America, who has given up his \$6000 a year job as an officer of the Civic Federation in compliance with the mandate of the union that he could not remain a member of the union and continue as an officer of the Civic Federation.

He has his home in Bridgeport, Ohio, and on Monday will take a place as miner in the Wheeling Creek mines of the Loraine Coal and Coke Company.

It is stated that Lewis has received a number of business offers, but he promises to remain in the miners' organization. His friends here say he will again be a candidate for International President. He recently discouraged an effort to make him the head of the Ohio organization.

## SUFFRAGE BREAKS INTO EXCLUSIVE EBELL CLUB

Topic Bobs Up for Discussion Despite All Rules to the Contrary.

TO HEAR BOTH SIDES OF THE QUESTION

Suffragist and Anti-Suffragist to Give Arguments Before Organization.

The all-absorbing subject, equal suffrage, is confronting the members of the Ebell club, which has sought to evade the issue since the organization of the club. The constitution forbids the consideration of all political questions.

When the subject is approached at the convention of the State Federation of Women's clubs to be held in May in Stockton, Ebells will probably have to cast a vote either for or against the measure, or perhaps the delegates representing Ebells will not cast a vote but will ignore the measure.

At the Susan B. Anthony luncheon held in Hotel St. Mark in February, Mrs. J. B. Hume, former president of Ebells, publicly declared that she would ask the endorsement of the federation in the suffrage measure.

Both sides of the suffrage question will be expounded on April 11, before the members of Ebells, when Miss Minnie Bronson of New York will give her reasons why women should not vote and Miss C. McArthur, past president of the Collegiate Alumnae, will speak in favor of suffrage for women.

## SCHOOL HEALTH CONDITIONS GOOD

More Than 17,000 Children Examined by Health Authorities.

Infectious diseases among the Oakland school children have decreased to one-half their former amount, according to the last report of Dr. N. K. Foster of the Oakland public health department. Dr. Foster, assisted by his staff of six nurses, has done excellent work among the children.

Each child is personally examined by one of the nurses, and a report of his physical and mental defects sent to the child's parents. If the parents of the child are financially unable to secure proper medical attention he is given free treatment at the clinic of the Oakland Medical College. More than 17,000 children have already been examined. Operations daily take place at the medical clinic.

## IMPORTANT THAT PUBLIC SHOULD KNOW ABOUT GREAT KIDNEY REMEDY.

The testimonial I am to give you comes unsolicited. I have been suffering from lumbago for ten years and at times was unable to stand erect. A Mr. Dean of this city saw me in my condition (bent over) and inquired the cause. I told him that I had the lumbago. He replied, "If you get what I tell you to, you need not have it." I said I would take anything for ease. He said, "You get two bottles of Dr. Kilmer's Swamp-Root and take it, and if it does not fix you O. K. I will pay for the medicine myself." I did so and am a well man. For five months I have been as well as could be. Before I took your Swamp Root was in constant pain day and night. This may look like advertising, but it seems to me most important that the public should be made familiar with this treatment, as it is the only one I know which is an absolute cure. I owe a great deal to Dr. Kilmer's Swamp-Root, and am anxious that others situated as I was should know and take advantage of it. Hoping that this testimonial may be of benefit to some one I am,

The Letitia, the first whaler to outfit and lay in stores in Oakland for the long summer work in Alaskan waters, is at the city wharf preparing to sail next Monday. She is owned by the Oakland Whaling & Transportation Company, and is commanded by Captain J. A. Macomber. H. T. Hempstead, who owns the largest interest in the company, asserts that whalers can outfit at less cost in Oakland than in San Francisco. The little whale will take a crew of 30 and after cruising around Madak Island will proceed to the Bering Sea. Last year the Letitia made a record catch. ## BOMB WRECKS HOUSE; JARS OFFICER

Policeman, Shaken by Explosion, Recovers in Time to Stay Panic.

Victim of Outrage Admits That He Had Received Threatening Letters.

NEW YORK, March 30.—A black hand bomb was exploded early today almost beneath the coat-tails of a New York policeman. The bluecoat making his regular nightly rounds was standing at the doorway of a tenement house on First avenue and the bomb was in the cellarway of the building not a rod from his feet. He was uninjured although the front of the building was damaged and doors and windows blown in.

The tenants, twenty families in all, made a wild rush for the streets, but were checked by the policemen who had gained his equilibrium and composure by the time they came streaming down the stairs.

The bomb, apparently deposited in the cellarway early in the night with a time fuse, was aimed at the wine shop of Anthony Valenza on the ground floor. He admitted that he had recently received threatening letters.

Please notify my cold-blooded, heartless son, Clarence, of 15 and 16 Sixth street. Sorry to trouble you, but that is what you are in the business for. Also notify Fred, the undertaker on Mission street, and oblige, Franklin E. Dennen, 867 Elizabeth street, city."

"On a corner of the note he wrote that he had had no sleep for four nights. Dennen was evidently between 5 and 60 years of age."

## COUPLE SIXTY-EIGHT YEARS 'YOUNG' HOLD GOLDEN WEDDING

FOUR GENERATIONS WHO LAST NIGHT CELEBRATED THE GOLDEN WEDDING OF MR. AND MRS. W. M. GARDNER.

From left to right—First row: Louis Travis, Bert Adams, William Adams, William McPherson, George Krew. Second row—Arthur Tomlin, Mrs. Leslie Lewis, Mrs. Ed Gardner, Ed Gardner, Al Gardner, Miss Vera Gardner, Mrs. Al Gardner, W. M. Gardner, Jr., Mrs. George Krew, Benjamin Adams. Third row—Miss Ora Travis, Miss Hazel Lewis, Mrs. Lew Travis, Mrs. H. Braun, Leslie Lewis, W. M. Gardner, Sr., Mrs. W. M. Gardner, Mrs. Benjamin Adams, Mrs. Ed Bell. Fourth row—Erwin Lewis, Gordon Travis, Roy Tomlin, Gladys Tomlin, Myrtle Tomlin, Evelyn Lewis, Edmund Bell, Arnold Lewis, Mildred Lewis, Allen Lewis, Eloise Bell.

In celebration of their golden wedding, forty-five guests last night assembled at the East Oakland home of Mr. and Mrs. W. M. Gardner at East Fifteenth street and Ninth avenue. Of the guests, thirty-three were members of the family, representing four generations, the youngest of which is three days old, and the oldest 88 years of age. The couple were married in Dundee, Scotland, and came to Oakland not long after. The oldest son is 48 years of age. All of the children were born in Oakland.

In the family there are seven children, nineteen grandchildren, and five great-grandchildren. They all claim Oakland as their birthplace and residence. Mr. Gardner is 68 years old, and his wife is but a few months younger. However, Mr. and Mrs. Gardner claim they are 65 years young, and appearances certainly agree with the assertion. They were the merriest of the merry at their home last night, and issued an invitation to all of the guests to the celebration of their diamond wedding, March 29, 1913.

The home was tastefully decorated with wild huckleberry and daffodils. The surprise of the evening came when the old couple were presented with a wedding cake two feet in diameter, on top of which were twenty \$2.50 gold pieces, making a total of \$50. Among those present were: Louis Travis, Bert Adams, William Adams, William McPherson, George Krew, Mrs. E. Adams, Mrs. Ora Travis, Mrs. H. Lewis, Mrs. M. Braun, Mrs. Leslie Lewis, W. M. Gardner, Sr., Mrs. W. M. Gardner, Mrs. Benjamin Adams, Mrs. Ed Bell, Gladys Tomlin, Myrtle Tomlin, Evelyn Lewis, Edmund Bell, Arnold Lewis, Mildred Lewis, Allen Lewis, Eloise Bell, and Roy Tomlin.

## BUCKET SHOPPING DECLARED LEGAL

The Government Loses Hard Fought Case Against Six Concerns.

WASHINGTON, March 30.—"Bucket shopping" in the District of Columbia is a lawful occupation, according to a decision handed down today by Justice Wright in the District Supreme Court, and as a result, the widespread crusade waged by the Department of Justice to end the practice in nearly half a score of cities threatens to come to naught.

The decision was rendered in the case of Edward A. Jones of Jersey City and Louis A. Cella of St. Louis, who operated a so-called bucket shop under the name of the Standard Stock and Grain Company. With twenty-six others, they were indicted for conspiracy in operating a chain of bucketshops, one of which was located in Washington. While six of those indicted pleaded guilty and were fined in sum aggregating \$8,000, the remainder decided to contest.

The movements of the government leading up to the indictments were shrouded in the greatest secrecy. On April 2, 1910, however, when indictments were obtained against "bucketshop" cities were made simultaneously, wires were cut and customers were thrown into panic. Since then, according to Attorney General Wickersham, "bucket shopping" has become a thing of the past.

## CANDIDATE FOR OFFICE STATES HIS PLATFORM

A. G. DAVIS, candidate for Commissioner No. 3 at the municipal primary.

A. G. Davis, candidate for the office of Commissioner No. 3 in the coming primary election on April 13, is a prominent citizen of Oakland who for the first time is putting himself forward for a public office. In this connection it will be of interest to the public at large to know something of Mr. Davis' history and something of his views upon public questions. Accordingly, he submitted to an interview for THE TRIBUNE.

Mr. Davis is a member of the firm of Davis & Cushing, doing a general insurance business with offices in the Union Savings Bank building, this city. He has been for thirty consecutive years in that business here, and for his entire life has been a resident of Alameda county, having been born in San Leandro fifty-one years ago, his father being William Heath Davis, the well-known California historian, and his mother, a member of the famous Euthy family of San Leandro. Mr. Davis had all of his schooling in this vicinity, having attended the grade schools and college, after which he took a business course. He then entered into insurance work, in which he has ever since continued. His home is at 134 Santa Rosa avenue, this city, where he lives with his wife and three children.

As to his views upon various public questions, Mr. Davis had the following to say:

"The question of a public official's attitude toward public service corporations is one which vitally interests the community at large. As to my personal attitude, I believe that any compensation for the service they render, and at the same time they should be required to render to the public a full and complete service for this compensation. As to public improvements here in the city, I believe they should be made whenever necessary, and when they are undertaken they should be carried on in the manner most conducive to the public interest. I also believe a tax rate of the city of Oakland is too high and should be materially reduced. This can, moreover, be done, in my judgment, without in the least crippling the city government, provided the business of the city is conducted in the same manner as a private corporation would conduct its business. To accomplish this, what is needed is efficiency in the public service.

"And I am elected to the office of commissioner, it will be my policy to give to the people of Oakland a clean, honest and economical administration, so far as I personally am concerned. I stand for the development of the city of Oakland under a progressive government and will be willing to devote all my time during office hours to the duties of the office."

## NEW ADMINISTRATOR FOR HANSEN ESTATE

SAN FRANCISCO, March 30.—The tables were turned this morning on Hans Hansen, administrator of the estate of her uncle, James Hansen, by reason of her allegation that a sister of the defendant, Annie Petersen, had, without permission, withdrawn \$4000 from the Hansen and Gorman banks, which money belonged to the estate. It developed that Mrs. Petersen was unaware of the appointment of an administrator and told the court that the money had been deposited in their joint names and was as much hers as her brother's. On learning of the fact, the court made her administrator in place of her cousin.

## SERVANTS LURED BY PROMISE OF \$5 WAGES

POINT-A-PITRE, Guadalupe, March 30.—A Canadian employment agent is here securing colored domestics who are to be paid wages of \$5 a month in the Dominion. Sixty servants sailed on the steamer Korona for New York, from where they will proceed to Montreal. An equal number plan to leave on the steamer Farina about the middle of April.

## DAUGHTER RULES IN HOUSEHOLD OF THE POET

"I'm Happy," Cries Joaquin Miller on Reaching "The Heights."

(Continued From Page 1)

for many weeks. After a prolonged stillness, he spoke:

"Oh, beautiful, beautiful! I am glad. Never for a thousand years will I again leave this spot."

His voice was weak and he spoke with a deliberate accent, though scarcely audible far from his side. It was as if he communed with himself. After a slight pause while he drew breath, he continued:

"All these trees, I grew them—or God did—I planted them, every one, and see them now; this spot, I chose it of all others, built this home, those roads and bridges and planted orchards. I was happy and am happy now."

His daughter, who in her small family and Mrs. Miller, who recently arrived from New York at her daughter's solicitation, to remain with her husband during his declining years, said that she, too, was glad to be at "The Heights" again.

## WONDERFUL CHANGE.

"What a wonderful change there has been," she said. "When Joaquin first brought me here these hills did not possess a trace of shelter of any kind. He was satisfied to remain and live the life of a recluse and I thought it would be easier for him to provide for one than for three, so I took Juanita and went east. We sort of agreed to disagree and year after year things were allowed to drag along until my husband was taken with this illness and Juanita came to nurse him. Then she persuaded me to come and last week made the trip to New York to settle our affairs there. Now we are both here and happy."

During all the time of the couple's separation the poet neither sought to have his wife return nor to heal the breach that had arisen between them. But with his daughter's return sprang a fond attachment, a love and then a feeling of fellowship which at last has overruled his harsh ideas and made him subservient to her every desire.

"His most serious fault was a sudden change of heart regarding women. Always he has depicted their endeavors when they strayed in the slightest degree from the believed to be their sacred duty, that of reigning in the home. But yesterday he insisted that a woman drive him in her auto to his home."

## "WONDERFUL AIRSHIP."

"I would have that airship, that droll-doll, with her wonderful airship, come for me, and you, Juanita, to take us home," he said in pleading words, and his eyes were watering. Several times at delays on the road he became impatient and threatened once, when high up in the hills almost within sight of his tall tree gardens, to get out and walk. All the most serious fault was a sudden change of heart regarding women. Always he has depicted their endeavors when they strayed in the slightest degree from the believed to be their sacred duty, that of reigning in the home. But yesterday he insisted that a woman drive him in her auto to his home."

All the journey seemed to be with the realization on his part as he went along that he would never again see his wife, not even in death, for within his domain he has marked out the spot where he chooses to lay, "to mingle forever with the elements, and the forest that his own hands planted."

## RECITES "JUANITA."

Juanita Miller, who during her sojourn in New York had taken up the study of music and elocution, takes particular delight in reciting her father's poems. She knows them all by heart and rendered them with a sympathetic feeling that is closely akin to that of the person who conceived their thought. After the arrival yesterday, when she had made her father comfortable in his easy chair, she recited "Juanita," the poem which she dedicated to her during the lonely days the poet spent on "The Heights" longing for her company.

At the hospital she had taken up the duties of a nurse in order that she might be near her father at all times, and his rapid recovery was attributed by the physicians to her presence. When she went east to nurse her father, she suffered a relapse and it was feared that unless she promptly returned he would retires himself to death.

As to the poem, they both love, the longest, she says are the ones most appreciated.

"Father has told me that the longer verse, Sappho, Battle, are the ones that will last the longest and as time goes on be more appreciated. Among those he would choose his greatest work."

## VEWS ON MATRIMONY.

Besides her many accomplishments Miss Miller also maintains a few radical views as to matrimony.

"I believe that when a woman marries she should absolutely merge her personality in that of her husband," she said. "There is but only one course for a woman to take: She should be absolutely ruled by her husband. In this way, woman would know that she should have no voice in the management of the household, but that to a certain extent, even in that respect, the man should decide the general plan for conducting affairs."

"If I had my way there would be a law established providing that a man and woman would have to know each other for two years before they would be permitted to marry."

That the welfare of the aged "Poet of the Sierras" is her chief interest, the present, however, was clearly manifested yesterday after the meeting of her father and mother. Every little attention that a woman knows how to bestow was showered upon the white haired man, the patriarch of the Fruitvale hills, known the world over for his flowery verse, his eccentricity, his love of the beautiful and California.

## EXPECT TO POLL BIG VOTE AT THE PRIMARIES

Greater Oakland Organization Calls Meeting in the Interests of

P. C. Frederickson

Interest in the present local campaign is increasing day by day, as time for the holding of the primaries approaches. This is manifested not only by the several candidates, but also by the people. Organizations which heretofore have paid no attention to local politics are throwing open their halls to candidates for the purpose of giving the latter an opportunity to express their views on all the subjects which have been injected into this campaign.

It is the purpose of these organizations, after they shall have heard all the candidates, to decide for themselves as to which of the aspirants should receive their support at the polls.

This action will cause a large vote to be polled at the primaries, and people versed in political history of the city declare that the vote on that occasion will be the heaviest that has ever been cast in this city.

## IN ANNEXED DISTRICT.

There is a great deal of attention being paid, in a special manner, to the political game in the newly annexed district of East Oakland. It will be the first time the people will experience the pleasure of voting for officials who will represent them under the new government to which they have attached themselves by an almost unanimous vote.

In some respects the campaign is receiving more attention than it is in some of the older sections of the city. This is evidenced by meetings which are held every night in the interest of some of the candidates and in a special manner in favor of P. C. Frederickson for commissioner No. 4, whose strength is the Young Men's Republican Club of Fruitvale, but has been re-christened for the present campaign.

Frederickson will be one of the speakers and his speech will be assisted by some of the most patriotic citizens of the eastern section as also by some well known orators of the interior of the city. There is an earnest welcome extended to all residents of that territory to be in attendance.

There will be a turnout this evening in Alcatraz hall at the corner of Seventh and Berkeley streets in the interest of the new government, at which there will be a number of speakers. The principal address will be delivered by Mayor Mott, who was formerly a resident of that section. It was also reported that a quarter in the city council for several terms and still has hosts of friends there who will be pleased to hear him discuss the issues of the campaign. It is expected that there will be a large attendance.

## MAYOR'S HEADQUARTERS.

The headquarters of Mayor Mott for the campaign, as also that of City Treasurer Meese, is located at the northwest corner of Thirteenth and Franklin streets, where there is a large force of men engaged in the work of the campaign. Circulars are being prepared and these will be sent to citizens in all parts of the city. In these the problems of the campaign will be discussed for the benefit of the people who do not attend the public meetings which are to be held henceforward.

## McARTHUR SPEAKS.

The speakers at the weekly luncheon of the Tri-City Rotary Club today at the Forum cafe, 1158 Broadway, were Dr. George H. Richardson of San Francisco, who discussed "Municipal Ownership of Sierra Water for Bay Cities," and Leo J. McCarthy, candidate for commissioner No. 2 at the coming city election, who spoke on "Civic Interests."

McCarthy referred briefly to the new charter and spoke of the awakening of civic pride, which was responsible for the instrument. Under the commission form of government the city is in a position to demand the measures they desired, and their demands would have to be complied with.

McCarthy said in conclusion: "Oakland has reached a crisis in the development of her natural resources. A multiplicity of plans and ideas are being formulated in a desire to place her on the high plane of commercial importance which her geographical position on the continental side of San Francisco bay justifies. The broadness of the new city charter under which candidates are now seeking office is the first large instrument placed at her disposal which will assist in bringing about the results so urgently desired by her citizens."

## LEAVE OF ABSENCE.

McCarthy was granted a leave of absence yesterday by the board of public works for one month to go into effect April 1, in order to devote all of his time to his campaign. McCarthy is in the employ of the board of public works and established a precedent when he asked for the leave of absence, putting it upon the ground that he did not feel it was fair to take the city's money when he was not giving all of his time to the city.

## INQUEST IS HELD

Accident Is Verdict of Jury; Other Decisions Are Rendered.

BERKELEY, March 30.—Four inquests occupied the attention of the coroner at the Berkeley morgue this morning. In the case of Thomas Rickard, who was killed in falling from the second story of his home at 2027 Bancroft way, it was the verdict that he died of a rupture of the descending aorta, and death was accidental.

In the case of James Arlett, the former baseball player, it was found that he died from a fractured skull in falling from a San Pablo car last Sunday. A verdict of suicide was rendered in the case of Peter Norberg, a gardener, who was found dead as the result of asphyxiation in the rear of 1918 Harmon street last Monday afternoon.

Another verdict of accidental death was arrived at in the case of Alphonse Gans, a youth of 1922 West street, Oakland, who was shot in the shoulder by Fred McCarthy, of 594 Jones street, Oakland.

## INCENDIARY CAUSES HEAVY LOSSES

POLLOCK, La., March 30.—A \$200,000 fire practically wiped out the business section here last night. Twenty-eight buildings, including two hotel-restaurant structures and residences were destroyed. The fire is supposed to have been of incendiary origin.

# GEORGE PATRICK THREATENS WOUNDED DOCTOR

## 'BYRON AND I CAN'T LIVE IN SAME STATE,' DECLARES BROTHER OF GIRL

(Continued From Page 1)

taking girls, little grammar school girls, into his home while his wife was away, and the testimony concerning one of these girls who was about to become a mother. Dr. Byron has not been a saint, but he has dealt with grown women able to take care of themselves at the least.

#### WILL BEAR OUT FACTS.

"If Nolan thinks he can exonerate himself in this manner he must have forgotten that people who were cognizant of the facts are still alive and can testify against him. Rolf Thompson of Sonoma was assistant district attorney at that time, although the man who was district attorney is dead. He will bear out the facts in this case, as well District Attorney Lea, and Editor Granice of the Sonoma City Tribune. If Mr. Nolan thinks he can gain by this sort of thing I accept his challenge and will protect my husband.

"I have taken a philosophical view of the present situation. I wish to preserve my home, and to care for my child. I am not sobbing with grief over this affair. I think Dr. Byron was wrong, and that the girl was wrong. They both had many warnings, and Miss Patrick persisted and was as far wrong as my husband. I don't know whether or not she was hypnotized, but he never hypnotized me.

"The charges were brought by Dr. Byron, who was accused of being connected with one of the cases when the expose was made. For weeks the trial was under way before the board of education of Sonoma, District Attorney Lea of Sonoma appearing as counsel for Dr. Byron.

#### CHARGES PHYSICIAN.

"The facts brought out at the trial showed that Nolan's actions were of the vilest nature. After the expose by the San Francisco protective association, which had involved Nolan, he went to Forresterville and there charged Dr. Byron with having been guilty of the offenses charged against him.

"Dr. Byron immediately asked for an investigation and demanded that he be exonerated. To bring the matter definitely before the authorities he asked that his license as a physician be revoked if the charges could be substantiated.

"There was an extensive trial, and because of the fact that Nolan was high in a fraternal organization and the majority of the men on the directorate were also of the same organization, the matter became a burning sensation throughout the State. The directorate refused to revoke the license, declaring that there was not cause, but the papers designated the verdict as a "scratch" verdict, as the school directors failed to exonerate Dr. Byron formally.

"Nolan was retained as principal of the school, but so strong was public opinion in the matter, that over one-third of the pupils were removed from the school and placed in parochial schools.

#### LEAVES SONOMA.

"His friends fell away from him, and he finally was driven to leave Sonoma City. He has been able to obtain another school in California and is now studying at the university to obtain a diploma to get a high school.

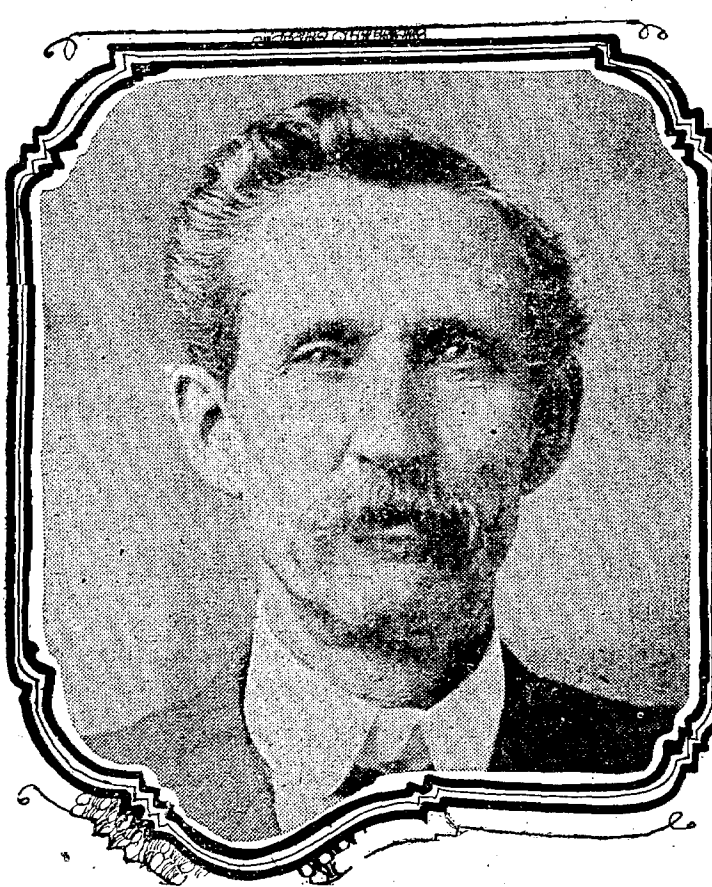

Mrs. Byron told her story calmly and quietly, without showing any excitement. She appeared as a woman ready to defend her home, and looking without fear upon the problem that faced her.

#### LIKE 'ADAM BEDE.'

Passion run riot, coupled with the consciousness of subtle flattery in the attentions of a physician of standing in a large city paid to a somewhat uncultivated country girl, and assisted by the relation of doctor and patient, worked to the undoing of Ethel Frances Patrick and Dr. A. E. Byron, whose intrigue was thrown into the public light.

The story finds its parallel in the pitiful tale of pretty Hetty Sorrel, and Captain Arthur Donnithorne, in George Eliot's great novel, "Adam Bede." The classic by George Eliot parallels the history of Dr. Byron and the Patrick girl, and extends even to the fact that the girl, through lack of training and through the untram-

MISS ETHEL FRANCES PATRICK and a portrait of her father, JAMES T. PATRICK, who stabbed Dr. A. E. Byron, and is relying on the "unwritten law" for his defense.

meled liberty she was allowed by her parents, was prepared and placed the sure victim of just such a situation.

#### COULD HAVE BEEN AVOIDED.

The situation was one that might have been expected from the circumstances in the case. It was a situation that might have been avoided by a little intelligent handling. It was one that might have worked itself out to a quiet conclusion had it not been for the sudden burst of fury on the part of the father of the girl which resulted in Dr. Byron being carried to the hospital, there to fight for two days for a yet precarious hold upon life, and in the father being incarcerated in the city prison awaiting the result of that fight.

That the relations between the girl and physician were of an intimate nature had been known to the parents for several months. Persuasion and threats were used, but they were apparently not taken seriously by the girl, who had become infatuated beyond the reach of reason by Dr. Byron.

Now that the scandal has become public property, that the physician is fighting for his life at the Providence Hospital, the father held in the city prison, and the wife of the physician bearing the brunt of the scandal, dreyed and stoically at the pretty residence in Shafter avenue, precautions are being taken by the relatives of the girl.

These precautions savor of the proverb about shutting the door after the horse has been stolen. Ethel Frances Patrick is virtually a prisoner in her own home. Watched by her mother in the little grocery and delicatessen at 350 Fifty-fifth street, guarded carefully by a stalwart brother, George Patrick, who is studying engineering in a local college, and subject to the solicitous attentions of Frank Merrifield, the clerk in the store, who first brought the fact that Dr. Byron was a married man to the

attention of the parents, the girl is cared for as she should have been cared for many months ago before the entanglement reached its denouement. She is not permitted to talk to whom she will, nor to read the papers carrying account of the scandal in which her family has become involved.

#### DIFFICULT TO UNDERSTAND.

The purpose of these precautions at this time is difficult to understand. Whether the care of the girl comes as a reaction against the freedom which worked her undoing, or is a precaution taken in the fear that she may commit some wild act of remorse, or may leave her home for the purpose of rejoining Dr. Byron should he live, has not been explained by the members of her immediate family. She is now guarded and protected as a jewel of great price in the Patrick household, and an earnest solicitation is shown for her welfare that would have been more appropriately taken several months ago.

That should Dr. Byron live he will have to face trouble, was the declaration of George Patrick, brother of the girl, last night.

#### THREATENS PHYSICIAN.

"I do not wish to make any threats," he declared. "But when I start out to do anything, I do it, and I travel fast. If Dr. Byron gets well, there will not be room in this State for him and George Patrick at the same time, and I intend to stay here.

"There won't be any mistakes about it this time. I have information concerning this man that would cause him to be run out of Oakland without any efforts on my part. This is not the first case against him of this nature, and I will attack him with his past records. Whichever way it goes, whether he lives or dies,

my sister will be freed from his influence."

#### WOULD GO ALONE.

Asked why he had not accompanied his father and mother to the Alhambra Hotel Tuesday night when they went to remonstrate with Dr. Byron and to induce Frances Patrick to return to her home, he said significantly:

"When I go on a trip of that kind, I go alone, and bring things to a conclusion without assistance."

Although the police have accepted J. B. Patrick's declaration that he stabbed Dr. Byron when he found the physician and the daughter together at the Alhambra Hotel, the circumstances of the meeting have not been given in so detailed a form as to clear up all the mysterious circumstances of the knifing affray. Just what part Frank Merrifield, clerk in the grocery store and solicitor guardian of Miss Ethel Frances Patrick, had in the affair has not been made clear. Merrifield was one of those in the room at the time of the stabbing. He had gone with the parents and Mrs. G. M. Mack, an intimate friend of the family, to lend his moral support in winning the girl from her erring way.

#### EVENTS HAPPEN FAST.

The rapid series of events which culminated in the stabbing of Dr. Byron has been variously told by those who were witnesses of the affair. When Mrs. Henry, proprietress of the Alhambra, entered the room with her daughter, Patrick was already on his way to the police station with the knife with which Dr. Byron had been stabbed to make his confession of guilt.

"What has happened?" asked Mrs. Henry.

"The doctor has stabbed my husband," Mrs. Patrick is said to have answered, indicating the physician as her husband.

Mrs. Henry says that she was led to believe that Dr. Byron had done the stabbing and had made his escape, leaving the wounded father to be taken to a hospital. The physician was sitting in a chair clutching at his breast. He had been assisted in dressing by the girl, as he had been clothed only in undershirt and trousers when the stabbing occurred.

#### IDENTITY REVEALED.

It was not until the detectives arrived, according to the proprietress of the hotel, that she realized an attempt had been made to dupe her, and that this was not the father sitting wounded before her, but the physician himself. She learned of this through the detective, who called the doctor by his name as he entered the room.

Whether this singular attempt to reverse the positions of the father and physician as to the killing was the result of hysteria on the part of the mother, or was planned beforehand, is uncertain. The people in the hotel declare that Mrs. Patrick appeared perfectly calm and collected, although the girl herself was hysterical.

Merrifield during the rest of the proceedings remained in the background, and his name has not been mentioned by any of those who witnessed the trouble, being carefully guarded in the interviews with the girl and her mother and father.

#### IDENTIFICATION FAILS.

When Patrick was taken to the Receiving Hospital to identify Dr. Byron as the man he had knifed, an astonishing situation presented itself.

"Is this the man you cut?" demanded the detectives.

"I don't know," responded Patrick. "I know I stabbed a man. But I don't know whether I ever saw this man before."

"Is this the man who stabbed you?" Dr. Byron was asked. He looked at Patrick carefully. Then he said:

"I don't know. There were two men in the room and one of them stabbed me. I don't know whether I ever saw this man before."

Since that time no word concerning the affair has passed Dr. Byron's lips. He is under the care of Dr. O. D. Hamlin at the Providence Hospital, and his life is still wavering in the balance. Should his condition take a turn for the worse, a death bed disposition will be taken by detectives with the prosecuting attorney to verify and swear the man.

#### POLICE ARE SILENT.

The detectives spent several hours yesterday questioning the Patrick family as to the circumstances of the case, but no report of a definite nature has been given out by the police which adds materially to the first account of the stabbing made public Tuesday night.

It is possible that the excessive care that is being taken of Ethel Frances Patrick by her mother, brother and friends is the result of fear of a nervous breakdown on the part of the girl. She is said to be almost hysterical as a result of the experience she has been through, but nothing of this was shown when she attended a conference with Captain of Detectives Walter J. Petersen yesterday after-

noon. She showed the utmost coolness and considerable unconcern as to the fate of Dr. Byron.

The parents believe that if the girl was not hypnotized or led into misdoing through mediocrity or spirit influences, she had been drugged. This the girl denies, but the parents base their belief upon the fact that for many months past her health has been fast deteriorating as though some influence of either a physical or spiritual nature was bearing down upon her.

#### LOSES SPIRIT.

They say that she has lost her brightness of spirit, and that whereas when they came to Oakland from the country she was a strong, healthy girl, she is now weakened and ill as a result of her affair with Dr. Byron.

The girl brazenly accepts the fact of her relations with the physician, offering in mitigation that he had promised her marriage. It is in the initial stages of her attachment for Dr. Byron that her story parallels that of Hetty Sorrel, the pretty but empty-headed country girl heroine of the George Eliot novel. She had been raised on a farm and was of the stock that makes the agricultural population of the States. Bred in quietness and loneliness in Butte county on a ranch, with the infrequent gaiety offered by country life, she was suddenly transported to the midst of city life in Oakland.

#### BROKEN IN HEALTH.

Her father, broken in health, and with a virulent stomach complaint to contend with, came to Oakland two years ago after selling his farm. He set up a small grocery and delicatessen on Fifty-fifth street not far from Grove.

From her window the girl could look out at the brightly flashing Key Route trains carrying their freightage of merry-makers nightly to the theaters and cafes in the city across the bay. That persistent pilgrimage of the fortunate ones of earth, traveling richly gowned from the residence sections of Oakland to the merry white ways of San Francisco worked on the girl's imagination.

She is pretty, with the prettiness that lends itself to beautiful clothes. With the bright color in lip and eye and cheek that the sound life on the farm had given her, and the springy step, she possessed the blood to desire to display these things that were an asset in the city. Her very graces became a torment to her, and her pretty hands and delicate wrists and arms denied the station she bore in life.

#### VISITS PHYSICIAN.

Then she became ill and went to consult Dr. Byron as to her trouble. He found her case interesting more on the psychological than upon the pathological plane. She told him her troubles, her ambitions and vain aspirations. Life was not what it was meant to be for her.

The physician, clothed with the glamor of good family and high education, with the manners and customs of city life at his finger tips, found in the naïveté of the country girl an interesting subject of speculation. He readily decided to bring her into greater contentment with her lot, and commenced to take her to theaters and afterwards to cafes.

"He gave me the pleasures and the life I wanted," she said. "We did not have many friends here, and I had never had a chance to see the life of the city. Our friendship ripened into love."

"I did not know he was a married man, but it is possible that that under the circumstances it would not have made a great deal of difference in the long run. I was infatuated with him. He was the Prince Charming out of the fairy tale to me, a thing out of my world. I did what almost any girl would have done in my place."

#### INFLUENCE GONE.

"If he should get well, I do not know whether I should go back to him. I cannot tell. It seems now as though his influence over me was gone, that I care only for my father's welfare but I do not know. He said that he would get a divorce from his wife when I found out that he was married last September, that he had already an interlocutory decree."

"I thought marriage would excuse what had past, but I did not think at that time of at any time of giving up our attachment. What could I do? The thought that he was in Oakland and that I could go to him was enough to drive all other things from my mind, and I could not resist going to him. He is the first man who has been anything to me, and the thought of him will always fill my mind."

Dr. O. D. Hamlin, the physician in attendance on Dr. A. E. Byron at Providence Hospital, said early this afternoon that Dr. Byron's condition was not greatly changed from yesterday, unless possibly for the worse. No complications as far as he can discover has set in, he says, but Byron's condition is serious, although not hopeless.

father any reason for leaving her?" Attorney Bergen asked the witness. "She never did," was the son's reply. During his cross-examination by Attorney H. L. Breed, counsel for Sneathen, the boy admitted that his father had always treated him with kindness and consideration, excepting that at times he was probably unjust to him. At this juncture Judge Harris took a hand in the questioning.

#### ADMITS KINDNESS.

"What do you mean when you say that your father was unjust to you at times?" the court asked. "Well, he would make me feel cheap, sometimes, before my friends when they called on me by saying little things to hurt their feelings and mine." "You are prejudiced against your father in favor of your mother, are you not?" Judge Harris asked the witness. "Yes, I believe I am," was the honest reply of the young man, and then the court wanted more details about Sneathen's alleged lack of consideration of his wife's feelings.

"My father never inflicted physical punishment upon me," said young Sneathen, "but he did things that hurt my feelings." "Well, explain, young man; give me an instance of this," said the judge. "When the girls called me up on the phone and my father answered, they refused to give him their names. After I talked with them my father asked me who they were and I would not tell him. Then he upbraided me and said unkind things to me about my friends and about me."

"Don't you think it was your father's right to know their names?" Judge Harris asked, "and do you think it was becoming of you to have girls call you up at home, whose names you did not want your father to know?"

Young Sneathen answered this by saying that his father was very offensive at times towards him. Then in answer to a question by Attorney Bergen, the young man declared that he wanted his money, to have his custody in the event a divorce was granted.

Miss Sneathen, the daughter, was the next witness. She told the court that once she heard her father threaten to strike her mother and on another occasion call her a "biddy." She recounted the manner in which she and her mother, under cover of darkness, went "sneaking" and got on the trail of Sneathen and Mrs. Hubbard, and then told the court that once when her mother was very ill her father slept in an adjoining room and showed no interest in the condition of his wife other than to open the door once and ask, "What's the matter, are you ill?" Miss Sneathen told the court that she wanted to live with her mother.

After adroitly developing other features of the plaintiff's case, and at the same time manifesting a disposition to be fair and just towards the defendant, Attorney Bergen rested his case here, and Sneathen was put upon the stand.

Mrs. Sneathen having proved every allegation she brought against her husband, the latter made no defense other than to state in detail his financial status. He said that he was willing to pay \$20 a month for the support of each of his children, but with reference to the daughter, Attorney Bergen did not think that this amount was sufficient. The attorney said he thought \$30 a month was not too much for the daughter, and in this the court concurred.

After adroitly developing other features of the plaintiff's case, and at the same time manifesting a disposition to be fair and just towards the defendant, Attorney Bergen rested his case here, and Sneathen was put upon the stand.

Mrs. Sneathen having proved every allegation she brought against her husband, the latter made no defense other than to state in detail his financial status. He said that he was willing to pay \$20 a month for the support of each of his children, but with reference to the daughter, Attorney Bergen did not think that this amount was sufficient. The attorney said he thought \$30 a month was not too much for the daughter, and in this the court concurred.

## Independence and Its Doctrinaires.

Human nature is very contradictory. It manifests strange inconsistencies in applying principles for special purposes. For instance, a great journal noted for its independence in politics and its refusal to be bound by party platforms or considerations of party expediency, praises independent voting at the polls, but finds it suspicious if not meretricious if practiced in the halls of legislation.

Two Senators elected as Democrats in Massachusetts voted to re-elect Henry Cabot Lodge to the United States Senate. The journal in question is very much opposed to Lodge, and hence finds the Democratic Senators who voted for him guilty of treason to their party and perhaps of actual crime against the State. That is the party view of such strange flops from one side to the other, but it is not consistent with the doctrine of independence in politics.

The present Democratic Governor of Massachusetts was elected by Republican voters who crossed the party line to rebuke their own party and select for the chief magistracy the man they deemed the fitter candidate. If such freedom from party obligation was praiseworthy in the voter, why was it not equally praiseworthy in members of the Legislature?

Several Republican members of the Legislature refused to vote for Lodge. The authority that charges the Democratic Senators with recreancy has no word of blame for the Republican legislators who defied the party caucus and imperiled the success of the candidate of their party. The inference is irresistible that if a number of Republicans sufficient to defeat Lodge had bolted the caucus they would have been eulogized for displaying the same sort of independence that the Democratic Senators displayed.

The incident merely illustrates the fact that independence is often relished only when the independence shown harmonizes with the designs and theories of those who laud and encourage it. When it works the other way it is reprehensible.

The Republicans who voted for Cleveland in 1884 were lauded for their intelligence and patriotism by public men and public journals that denounced Democrats who voted for Blaine as traitors and recreants.

Independence is as broad as long. It means freedom from party obligation and party discipline; it is the extreme of individualism in politics and is, in essence, a rejection of the doctrine that the majority should rule and that the consensus of opinion in any body of men engaged in a common enterprise should prevail.

In other words, it is anarchy in politics. Carried to its logical conclusion it would not only destroy parties, but governments.

And it is a mistake to assume that independence in politics springs from higher conceptions of public duty than actuate other men. As often as not it springs from a spirit of insubordination, from prejudice, from rancor and from a sense of personal grievance. In 1884 religious prejudice prompted not a little of the Republican defection from Blaine and religious sentiment undoubtedly influenced many Democrats to vote for him.

The independence in both cases sprang from the same cause though the currents ran in opposite directions, and in neither case was it inspired by lofty principles or exalted patriotism.

Independence is often a false pretext, or rather a false assumption. It is set up as a claim to continued party membership by men who for one reason or another vote the ticket of the other party. Republicans who desire to support Democratic candidates and policies wish to call themselves Republican notwithstanding and defend their contradictory acts and professions by claiming to be independent and morally superior to other men.

There are men of course who are naturally independent in their modes of thinking, who are restive under party restraints and rebellious in their attitude toward all forms of discipline; who are contrary by nature and as a body represent nothing affirmative, only the doctrine of dissent. When they affirm they find fault and when they offer a constructive suggestion it is a substitute for what is approved by the majority. They are mentally insurgent and temperamentally in revolt against authority by whomsoever exercised. Intellectual insubordination of this kind is not without its uses. It is always a merciless critic and a searching examiner for faults; that is its chief exercise, for its mission is not to approve, but to blame; not to find cause for gratification, but to discover grounds for complaint.

Lucifer was the first independent of this order. He found fault with the government of heaven and created a discontent that survives among men to this day. It is the spirit that sees the hole always, but never the doughnut. It is irreconcilable, irreclaimable, rancorous, aggressive, censorious and pharisaical.

There must be no retrogression or reaction in the municipal policy of Oakland. This city cannot afford to go backward or suspend development. The plans to embellish and adorn the city and develop its commercial and marine facilities must not be discarded under any circumstances. Hence it would be the extreme of folly to elect men who are hostile to them and in alliance with the discontented and retrogressive element that finds fault with everything that is done. During the coming four years Oakland must put her best foot forward. Her house must be placed in order by the time the Panama-Pacific Exposition opens. The improvements projected on the water front must be carried out and the park system developed and beautified for the coming of the great stream of visitors that will be attracted by the fair. We must go ahead without pause or deviation from the plans upon which our civic development has been projected. If we stop to pull those plans to pieces and devise new ones everything will be involved in chaos and the city will be cast back into the state of arrested development from which it has only recently been rescued.

## Bribery Induces Blackmail.

The jailing of a policeman in San Francisco for taking a bribe from a motorist who had been arrested for exceeding the speed limit at once exposes an evil and suggests a remedy. It has become too common a practice for motorists arrested for speeding to compound with the policeman or constable making the arrest instead of answering the charge in court.

A system of corruption has thus been inaugurated that has developed into blackmail. When persons arrested on the highway for exceeding the speed limit find it convenient or economical to deal "under the rose" with the arresting officer the ground work is laid for organized graft and blackmail. The officer who will take a bribe will very likely make unjustifiable arrests in the hope of extorting blackmail from people who are willing to pay a small sum to escape detention or unpleasant notoriety. It has come to pass that innocent people are subjected to inconvenience, humiliation and imposition because of the acts of the lawless and reckless. Thus the effort to protect the public has degenerated in too many cases into the evils of unjust arrest, extortion and blackmail.

When unscrupulous venality controls the activities of the law the processes of the law are abused and the evil of speeding is not

corrected. Bribery promotes blackmail. It purchases immunity for violations of the law on one hand and promotes unlawful arrest and blackmail on the other. It starts a corruption that spreads and branches out to the detriment of justice in every direction.

Automobile owners and salesmen can do themselves and the public a substantial service by organizing to suppress unlawful speeding and to resist blackmail. The evils of bribery and blackmail have their origin in the transgressions of owners and drivers of motor cars. Speeding must be suppressed to insure the safety of the public, and when an officer is bribed to condone and conceal the offense the innocent are impounded for purposes of extortion. This discourages motoring and the sale of motor cars. The automobile industry is injured, while the public is not protected.

How often do motorists tell of being arrested and of squaring the matter by handing the arresting officer five or ten dollars? This merely encourages unjustifiable arrest. It is a felony in the first instance, and in the second establishes a system which oppresses and outrages many innocent people. The way to stop it is to quit speeding and quit offering bribes, for the bribe-taking officer is pretty sure to blossom out into a blackmailer. The speed maniacs who offer bribes encourage unlawful arrest and extortion. If reform begins at the beginning speeding will be suppressed, for speeding is the origin of all the other evils and abuses.

## JAJI BIN YDRIS

His name is Jaji Bin Ydris—the place of his nativity, Jolo, Island of Sulu, P. I. On the blue waters of the bay he plied his humble trade of boatmen. 'Twas a glorious tropical night, the night of November 29-30, 1910, when off Pili Island, the good craft Panco, with a mysterious cargo, and Jaji at the helm, ran afoul of the United States launch Ogden. The result was somewhat as follows: so far as the Panco was concerned, the boat and its cargo were a total loss. Bin Ydris escaped, with little or no injury. It was thought at first that the shock had plied his cognomen; but no. Jaji Bin Ydris was Jaji Bin Ydris, and the proud owner of the title abated not one consonant or vowel of the riotous assemblage that proclaimed him a man among men. It is now the year of grace, 1911, and Jaji is about to come into his own. The Senate this week favorably considered bill No. 1031, which directs the secretary of the treasury to pay to Jaji Bin Ydris the sum of \$377.40, as compensation for the loss of his boat. The bill was reported to the Senate without amendment, ordered to be engrossed for a third reading, read the third time, and passed.

Doubtless there is already rejoicing in the home of Jaji Bin Ydris. The sound of the lyre and the dulcimer may be heard in the land of the bolo. What enters Jaji to rock his baby on his feet? Is it an uprising in Samar, or a fresh earthquake in the neighboring isle? Those were trivial matters. It is a deeper emotion, one of thankfulness and gratitude, that shakes the stalwart frame of Bin Ydris. Eleven years have passed, 'tis true; but what are eleven years? The hurry and fret of the west are not for this son of the Orient. He has waited pass the house, but what of that? It is easy to imagine the family group, Jaji, Mrs. Jaji, and little Jaji. "Patience, my son, and thou, light of my life, will still wait. The bill must get pass the house, but what of that? It is already through the Senate; twelve years more, or, say twenty, at the fur-

## THINGS IN GENERAL

There is in Germany what is known as the "German Pedigree Book," or "Deutsches Geschlechterbuch," edited by Dr. Bernard Koerner. The purpose of the "Pedigree Book," according to "The Bystander's" Berlin correspondent, is to record the ancestry not of nobles, but of bourgeois persons who can prove that they are of genuine middle class or working class ancestry and have no noble blood in their veins. The editor explains in his preface that while many German nobles "out of court and material considerations have not kept their blood pure, there are many good business class families which have managed to do so." By thus encouraging the proper pride of such families, the "Pedigree Book" is doing much to eradicate the traditional envy of the noble.

In the official call for the First Universal Race Congress, suggested by Professor Felix Adler at Eisenach in July, 1906, the president, Lord

Weardale, says: "Great is the historic pride of London. Great also are its manifold tragedies of squalor and poverty. This varied story will be distinguished in the summer of 1911 (July 20-29) by an episode both brilliant and unexampled. In London will assemble mankind in council. Representatives of all human groups will come from the four quarters, and lands that know the Pole Star and regions that lie under the Southern Cross will meet each other in friendly intercourse in the First Universal Race Congress. The official congress languages will be English, German, Italian and French, though an Oriental tongue may now and then announce the soul of Asia."

Gypsy Smith, the famous revivalist, is now in Paris planning the evangelization of the gay capital. He thinks it is ready for repentance and is willing to lead the penitents. Speaking to a correspondent of the Chicago News, he said: "Paris is hungry for an evangelism which it has not had heretofore. I believe that the American churches could unite to build a

great hall in Paris, seating from 1000 to 2000 persons, put a scholarly evangelist speaking French and English at the head, and hold purely evangelistic meetings, not only Sundays, but on the evenings of weekdays. I am sure that a sincere evangelist able to speak French could sweep Paris with the simple words of Jesus, which all are eager to hear."

American scientists come in for a rap at the hands of Professor S. A. Arrhenius of the University of Stockholm, director of the Nobel Institute of Research and originator of the ionic theory of chemistry, who is about to visit this country. Most learned Americans lack the time to become great scientific discoverers, the professor tells the Paris correspondent of the Chicago Daily News. "The United States is splendidly equipped with endowed laboratories," says Professor Arrhenius. "The trouble with most American professors seems to be lack of time for persistent investigation. They try to do too many things. They should teach less and investigate more. When gifted in the latter direction they should be well paid for this kind of work. The Nobel Institute is entirely devoted to research work."

## Twenty Years Ago Today

The sun shone more brightly on this morning than for many days. The sea gulls flapped their wings more joyously as they circled around the great water towers, the waves splashed happily on the rocks of the mole. Superintendent Wilder was so pleased that he went to San Francisco. Clerk Palmer whistled "Martha" in regular phonographic chirps and even Archie Lister was happy. Billy Norton pointed to the bulletin board which set forth that every train was on time once again.

The first year of the administration of Collis P. Huntington as president of the Southern Pacific Company of Kentucky is drawing to a close. It was just about twelve months ago that Leland Stanford stepped out of the presidency of the corporation in a scene of excitement such as never occurred in the history of the company. The annual meeting will be held in San Francisco a week from Wednesday.

The Sunday school rooms of the beautiful new First Unitarian church now building on the corner of Fourteenth and Castro streets was dedicated yesterday, at which time the Rev. Edward Everett Hale was in attendance.

Rev. G. L. McNutt of the Pilgrim Congregational church is bothered no more during services by crying and restless infants. A room has been provided for them and Miss May Jackson placed in charge to care for them while their mothers are attending divine worship.

An extensively signed petition asking for the paving of Twelfth street from Oak street to Thirteenth avenue was filed with the council this week.

Baron Fava, Italian ambassador, has presented to the State Department at Washington his recall by his government and has demanded his passports. Trouble is believed to have arisen owing to the Mafia killings in New Orleans. R. M. Fitzgerald is anxious over the news as his aunt, Mrs. Irvine, and his cousins, Callaghan Byrne and William Byrne, are at present in Rome. In the event of war being declared American travelers might be seriously affected.

E. A. Heron of the Piedmont Consolidated Railroad Company says that the work of converting the Fourteenth street horse car line into a cable road will be commenced this spring.

## Chicago Real Estate

Chicago real estate dealers have abolished "moving day"—May 1. That date, as an institution and a horror, has ceased to exist. Both the Chicago and the Cook county real estate boards have adopted a resolution providing for the making of leases from any time in one year to any time of the next year. The boards explain that "under the new system everybody will not be moving on May 1 and the time for making repairs on buildings will not be confined to that particular time. It will benefit the repairer and the paperhanger, the vag man, the real estate man and the tenant."

The total frontage of this lot on two avenues is 289 feet, with a depth of 105 feet and a rear line of over 230 feet. At the east end of the lot is a beautiful knoll, an ideal site for a home, with a very fine marine view with Trestle Glen in the foreground. From this knoll the lot slopes, the slope being covered with oak trees—OVER TWO DOZEN IN ALL. This lot is priced at \$10 a front foot, and is a bargain at that figure.

LOT NO. 15 in Block "8." Here is a big, roomy corner, two blocks from the car line, which runs through this property on a hundred-foot boulevard. There is a splendid view from this lot and two large and beautiful eucalyptus trees upon it. \$17.50 a month will carry this site. Certainly a prize for one.

Counsel for Defense in Alaska Coal Land Case Pleas on Technicality.

SEATTLE, March 30.—In the trial of the locators of the English, or Sidney Straker, group of Alaska coal claims, for alleged conspiracy to defraud the government out of land worth more than one hundred million dollars, counsel for the defense continued to argue the motion requiring the court to instruct the jury to bring in a verdict of not guilty on the grounds that the indictment does not charge the defendants with crime; that no overt act of conspiracy was committed by the defendants, and that if any crime is charged in the indictment, prosecution is barred by the statute of limitations. ## A NOTEBOOK FOR POLICE

Chief Seymour, Captain Norman and Secretary Skelly Busy Explaining

Officer Ceinar's Private Records Causing All Kinds of Trouble

SAN FRANCISCO, March 30.—Policeman William L. Ceinar appeared in Police Judge Deasy's court at 10 o'clock this morning to answer the two charges of accepting bribes preferred against him at the instance of Chief of Police Seymour, after he had been caught in a trap set by Detective Conlan and Policeman Leonard at 6 o'clock last evening.

On motion of Attorney Greeley, the case was continued until Monday next because of the absence of Attorney Fitzpatrick, who is the lawyer previously employed by the policeman when he was arrested for petty larceny a year ago. At that time Ceinar was accused of stealing toilet articles from a car on an S. P. train, but managed to escape prosecution on his plea of intoxication.

Ceinar was caught accepting a blue envelope containing a \$5 note handed to him by Oscar G. Killip, an automobile man of 640 Golden Gate avenue. After he was searched it was discovered that he had a book containing the names of arrested parties and reasons for their getting out. Among the names of suspects were officers whom Ceinar was instructing him to deal leniently with offenders was Chief Seymour, Captain Norman, Secretary Skelly of the police commission, and Sergeant O'Meara. These officers were busy this morning denying their culpability in connection with the accused officer.

### SEYMOUR DENIES.

"I never directly ordered Ceinar not to prosecute an arrested man," said Seymour today. "In several instances when first offenders came to me I instructed them to speak to Captain Norman for final decision in the matter. I do remember the Etolung case. They were in a hurry to go some place and as they had not offended before, I thought the matter could be dropped. I want to say that I will never interfere again, even if the mayor himself comes to me. I am through with helping people out."

Captain Norman said he never instructed Ceinar to withhold or suppress prosecution, but that the fathers and mothers of arrested parties had frequently come to him and asked that as the cases were not flagrant, the defendants be let off easy. He had mentioned these facts to Ceinar.

### SKELLY REFUTES.

Secretary Skelly denied influencing the officer.

"Ceinar came to me on one occasion," declared Skelly, "and said, 'I fixed that case for your friend all right.' I replied that I didn't know any of my friends had been arrested. He then said, 'Somebody had mentioned me to Ceinar and so I replied to him, 'I'm glad he got out of it O. K. then.' That's as near as I came to causing any trouble. I don't remember O'Meara's case. Ceinar never had any right to use his name and maintain that he has not at any time had anything to do with persons arrested for speeding."

## NATURE APPEALS TO BUYERS

Many Outside Citizens Buying Where Natural Beauty Is in Best Form.

The wide range of selection offered to the seeker for a homestead is one of the chief reasons that the new Fourth Avenue Heights Tract of the Wickham Havens Company is meeting with such success.

There is hardly a variety of view or contour of ground that cannot be satisfied by some section of the new property. The Fourth Avenue cars that leave Thirteenth and Broadway run through the tract, and land them on the strip of comparatively level land that lines the car line on either side.

The visitor can in a few minutes' time find a greater diversity of topography and view than is offered by any other section of Oakland. He can reach the lot fronting upon the wooded depths of Diamond Canyon and Trestle Glen, with all the secluded atmosphere of the greatest private estates.

Sales Manager Edward A. Jones, of Wickham Havens, says: "One of the most gratifying features connected with our heavy opening sales in Fourth Avenue Heights is the large number of purchasers in our other Piedmont properties, who have bought here. There were fifteen at the opening sale. Some purchased for investment, while others, having made money in the other tracts, intend to build in Fourth Avenue Heights."

"The wild beauty of the immediate surroundings of Fourth Avenue Heights is a feature that is perhaps the highest of appreciation without a visit, because of the ride of but fifteen minutes to the business center of Oakland. A few minutes' walk to the depths of the canyons, where the waters still more in doubt as to the nearness of civilization. Within ten-minute stroll from any lot in Fourth Avenue Heights are surroundings as picturesque and wild as if Broadway were fifteen hours away instead of fifteen minutes."

"Foley's Honey and Tar is the best cough remedy I ever used. As it quickly stops a severe cough that had long troubled me," says J. W. Kirby, Princeton, Neb. Just so quickly and surely it acts in all cases of coughs, colds, influenza and lung trouble. Substitute Wisheart's drug store, corner 10th and Washington Sts.

### Sugar Cane and Bamboo For Paper Manufacture

Claimed That Combination of the Two Produces An Excellent Pulp.

WASHINGTON, March 30.—Another substance from which paper may be manufactured has been discovered by the manager of a sugar estate at Trinidad, according to Consul Franklin D. Hale, at that place. The new substance is ground sugar cane, to which is added bamboo fibre. The combination of the two, the discoverer believes, will produce a cheap and excellent paper. He has made paper by this process without the aid of chemicals.

The quality of the paper, according to the report, can command the market against any wood paper now being manufactured.

ALBANY, March 30.—Several fire engines pumped water into the ruins of the state library all day. Twice today the flames burst out afresh in the smouldering stacks of books, but were quickly subdued.

The senate chamber is practically undamaged and its water-soaked lobby can be made ready for use next Monday. It will take longer to repair the assembly chamber. There is still a foot of water in the "well" of the room.

The workmen today found large quantities of books in the state library in good state of preservation.

# JEWELRY SHOP IS CLEVERLY LOOTED

Gems Valued at \$5000 Are  
Removed in Full View of  
Passing Crowds.

Thieves Bind Proprietor, Pose  
as Clerks and Rifle the  
Show Cases.

SPOKANE, March 30.—The jewelry store of R. B. Wegner, in the heart of the downtown business district, was robbed shortly after 8 o'clock this morning by two armed men, who looted the show case and safe of jewels to the value of \$5000, after dealing the proprietor a blow which left him lying unconscious on the floor.

Wegner had opened his safe in the rear of the store and was removing jewelry to the windows and show cases when a well dressed man entered and asked to be shown some collar buttons. Wegner turned to reach a tray when he heard the command, "Hands up," and was confronted with a revolver. At the same time a second man entered the store, locking the door behind him. Wegner delayed in obeying the command and a shot was fired which shattered the show case.

The proprietor was then led to the rear of the store and beaten on the head with a file until he became unconscious. The thieves removed their coats and hats and methodically looted the store while passersby supposed them to be clerks. Ten minutes later Wegner, his face streaming with blood, attracted the attention of a man passing on the street by beating on the door. He was removed to a hospital. The police have no trace of the robbers.

# NEW ALLEGATION MADE BY FOX

Declares His Wife Had An Affinity Before He Became Her Husband.

SAN FRANCISCO, March 30.—A suit for annulment is the latest development in the divorce tangle of Jacob M. Fox and his wife, Alice, a talented banjo player. Recently Mrs. Fox began suit for divorce and her husband's relatives at Sacramento for \$75,000 damages, claiming that they were at the bottom of his marital troubles. Today he alleges fraud and misrepresentation at the time of his own wedding, saying that prior to the marriage his wife had found an affinity in Charles Byington, one of the best known of the old-time actors of the nation. It is on this allegation that the annulment proceedings are based.

CALAIS, France, March 30.—The channel steamer *Pas de Calais*, which ran aground and sank the French submarine *Fluviouse* last May, had another mishap last night when, in a fog, it went ashore at Sangatte, eight miles west of here. It was refloated this morning and proceeded to this port.

The eighty passengers, among whom were many Americans, were safely landed and brought in carriages to Calais. There was no panic and no one was injured.

An automobile is an economy. It increases your efficiency. It makes "two minutes grow for you where only one grew before."

The automobile industry is now the third in the country in point of volume and is still growing. The everyday, sensible, careful-buying business man has made this volume possible. If the motor car was an extravagance he would soon find it out—and quit buying.

has been unequal to the demand. Already this season more than 60 per cent of the 1911 output of Chalmers cars has been shipped to customers; the remainder is going fast. We take these conditions to mean that the Chalmers company has succeeded in building cars that appeal to the careful business buyers of the country as unusual value at their prices.

Last year a great many who wanted Chalmers cars were disappointed. We honestly believe the same will be true this year. We only make this as a suggestion—take it for what it is worth.

# WAR DECLARED BY FACTIONS OF EXCLUSIVE OAKLAND CLUB

MRS. F. W. LAUFER (upper) and MRS. GEO. SAMUELS on the new ticket reported to the Oakland Club.

# Committee Action Brings on Strife

War was declared yesterday by factions of the Oakland Club, when that exclusive organization indulged in heated argument over the action of the nominating committee which, on the eve of a new election of officers, suggested an almost entirely new board and practically dropped seven of the ten incumbent members, who considered themselves snubbed and who declare they will put an opposition ticket in the field. Miss Theresa Russell was offered the presidency by the present board but declined to allow her name to appear.

The members who names were dropped are deeply offended. A feeling of good faith on the part of the present board have acted with too much haste and too little judgment and many declare that the matter should have been left to a vote of the members.

The members of the nominating committee, in defense of their summary action, declare that when they canvassed the club to learn the attitude of its members, they found so much ill-feeling existing against the members of the present board that they felt it their bounden duty to suggest an almost entire new slate.

Those who felt axe. Mrs. W. A. Schrock, assistant secretary, who has been a member of the board for eight years, has been dropped. Mrs. John Mole, treasurer, will not appear on the official ballot on Wednesday. Miss Bessie Wood, corresponding secretary for the last two years, has been dropped, as has Mrs. C. S. Booth, third vice-president, and Mrs. Frank Merguire, second vice-president.

Following is the ticket which was reported yesterday by the nominating committee:

President, Mrs. C. J. Long; first vice-president, Mrs. Startevant Pest; second vice-president, Mrs. V. D. West; third vice-president, Mrs. F. W. Laufer; recording secretary, Mrs. G. W. Harrison; corresponding secretary, Mrs. J. P. Potter; financial secretary, Mrs. Theresa Russell; assistant secretary, Mrs. E. L. Bartholomew; treasurer, Mrs. George Samuels; auditor, Mrs. George Chambers.

The members of the nominating committee are: Mrs. Frances Gray, chairman; Mrs. George Bunnell, Mrs. L. P. Crane, Mrs. S. F. McKel, and Mrs. R. D. Holmes.

Of those whose names appear on the ticket proposed by the nominating committee but three are now members of the board of directors. They are Mrs. G. W. Harrison, Mrs. Theresa Russell and Mrs. George Samuels.

# PLANS CHANGED BY UNCLE SAM

Obdurate Old Chap Orders the  
Groom-Elect to Border;  
Intended Hastens.

SAN FRANCISCO, March 30.—Abandoning the magnificent crosseau she had made ready, as well as the big church wedding they had planned, and carrying with her the elopement of the bridegroom and even the wedding ring, Miss Elsa Hinz left yesterday on the steamer *Yalo* for San Diego, where she will become the bride of Lieutenant Bruce Bradford Butler at 9 o'clock this evening.

The wedding, as previously planned, was to have taken place on April 28, at St. Luke's, but Uncle Sam interfered when, a few weeks ago, Lieutenant Butler, with the troops at the Presidio, was ordered to the Mexican border.

Learning that he would probably be south all summer, with no possibility of a short leave of absence, he asked his fiancée to join him in San Diego and have the marriage take place there.

# REBELS MARCH ON CHIHUAHUA

Madero Concentrates Forces  
for Peace or War as  
Fate Decides.

EL PASO, March 30.—All available insurgents in the field in Northern Mexico are being concentrated west of Chihuahua, according to news received here. It is believed by insurgents sympathizers that the purpose of this move is to allow those who have fought for the insurgents cause to have some part in the consideration of the peace terms. That there has been no recent fighting around Chihuahua is regarded as indicating that the men in the field regard the selection of the new cabinet as an evidence of good faith on the part of the government as preparatory to peace negotiations. However, the concentration of Madero's forces near Chihuahua is believed to indicate a readiness for an immediate movement against Chihuahua should negotiations fail.

Many of the insurgents are small farmers; they have been in the field for months, and have suffered many hardships. As the time for planting their crops is now at hand it is thought here that they will be willing to return to their farms and await the development of reforms if assured by the cabinet that the reforms will be enacted. They will demand, however, that they retain their arms, that all prisoners taken since the outbreak of the insurrection be released, and that the families of those who have fallen in the insurrection be given the same compensations awarded to families of the federal dead.

# OAKLAND OFFICER HELD FOR SLAYING

Daniel Fleming Must Answer  
to Charge of Murdering  
Youth.

REDDING, Cal., March 30.—At the conclusion today of his second preliminary hearing, Daniel Fleming, an Oakland railroad policeman, was held to answer before the Superior Court to the charge of having murdered George Vallier on top of a Pullman car attached to a Southern Pacific train near Redding on August 25 of last year. An application for release on bail was denied by Justice of the Peace Herzinger and Fleming was taken back to jail.

The accused man's attorneys say that they agreed with the district attorney that Fleming should be held, the purpose being to obtain a record upon which to base a petition to the Supreme Court for a writ of habeas corpus on the ground of insufficient evidence on which to base an accusation.

Fleming was indicted by the grand jury some time ago, but the indictment was set aside on technical grounds. The evidence against Fleming was gathered by the mother of Vallier. At the time of the tragedy it was declared that Vallier had met with an accident.

# \$20,000 JUDGMENT SUIT CONTINUED

Case Is Aftermath of Peculations of Alfred Le Beuf From Hale's.

Hale Bros' suit to secure a judgment for \$20,000 against Alphonsse and Andrew Le Beuf and other members of the family of Alfred A. Le Beuf, a convict at San Quentin, was continued this forenoon by Superior Judge T. W. Harris until August 30, by consent of both sides. This action is the outcome of the embezzlement by Alfred A. Le Beuf from Hale Bros., while acting as their cashier and office manager, of the amount the plaintiffs are suing for. He confessed to the peculations, which extended over a period of two years, and was sentenced by Superior Judge Everett J. Brown to serve ten years in the penitentiary at San Quentin for his crime.

The money was spent in gambling and all that Hale Bros. recovered from the embezzler were two diamond rings, valued at about \$500, and a diamond scarf-pin, worth probably \$125, which they recovered from the Le Beuf family.

After Hale Bros. instituted their suit Le Beuf made a deposition in San Quentin on behalf of his relatives to the effect that none of them had received a dollar of the stolen money.

# LAYMANCE AUCTION TO BREAK RECORD

The auction sale by the Laymance Real Estate Company on April 3 of the sixty-eight lots remaining unsold in the Piedmont Terrace-by-the-Lake tract promises to be a record-breaker for Oakland, and judging from the great interest that is being taken in it by local and outside investors, the foot of letters which started to flow into the company's office from all parts of the State immediately following the first announcement of the sale, has been constant through the week.

# 'BACHELOR'S BABY' TEACHES LESSON FOR EVERY MAN

MISS EDNA BRUNS to be seen with Francis Wilson in "The Bachelor's Baby."

Francis Wilson as author of his comedy-farce, "The Bachelor's Baby," has used for its ingredients "heartily laughter in generous proportions, a suspicion of a tear now and then, a tugging at the heartstrings and a wholesome appeal to the tenderer emotions." "The Bachelor's Baby" teaches a pretty lesson of child love and unselfishness. It is said that, if there's a man who doesn't love children, he'll change his mind when he sees this play, which teaches such a pretty lesson along with so much humanity.

The story tells of how a child-hating bachelor is won over to the inseparable love of his dead brother's little daughter, whose guardian he has been made.

There is much built up about the play to embellish this idea, but that is the nucleus.

That the part of Tom Beach is exactly fitted to Wilson's capabilities goes without saying, for the comedian took his own measure and is said to have given himself an excellent fit. Miss Edna Bruns will play the leading feminine part, that of Winifred West, the girl with whom the bachelor is in love, and she is partly instrumental in developing the love of the bachelor for the child.

Charles Frohman will present Francis Wilson in "The Bachelor's Baby" at the Macdonough Theater on April 3, 4 and 5.

# A DAY FOR ICED DRINKS IN SHADE

Old Sol Must Have Been Trifle  
Hot Under the Collar This  
Afternoon.

In spite of the fact that thousands in Oakland and immediate vicinity spent a greater portion of the day napping their brows and seeking cool retreats where the tall grass, the straw and the ice held forth tempting lure, the thermometer at Cabot Observatory when inspected by Professor Charles Burkhalter shortly after noon registered but 75 degrees, and the weather guardian vouched that the condition was not at all unusual for this time of the year. He anticipated, however, that the mercury would rise about 2 o'clock or thereabouts and might go as high as 80 degrees during the daytime. He accounted for the fact that the heat was felt more severely because there was very little breeze.

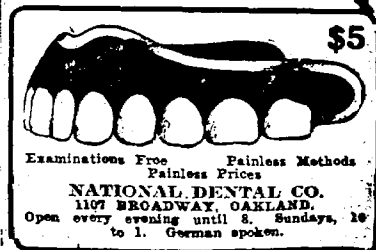

Nevertheless, the purveyors of cooling concoctions in all parts of the city and a thriving business; many were the long cool ones drawn over the maugamy, and taken altogether, the people were glad. Then, too, the home team was making its first appearance in a league game at Freeman's Park, so that the first real warm day of Springtime met an unanimous welcome.

## YOUNG CANADIAN

## IS RULER OF PIT

Arthur Cutten Annexes \$750,000 by "Bearing" May Wheat.

CHICAGO, Ill., March 30.—A new Napoleon of the wheat pit has appeared in the person of Arthur Cutten, a young Canadian who is known as one of the most daring of all the big dealers in the Chicago pit. Cutten is said to have added something like \$750,000 to his bank account by "bearing" May wheat, which has declined in price 1 1/2 cents on the Chicago Board of Trade since the first week in January.

James A. Patten, the "wheat king" whose retirement from the pit was short-lived, counts himself something like \$500,000 richer as a result of his deals. Other big winners on this deal, which at times has assumed gigantic proportions, are Captain J. M. Phillips, the Kansas bonanza farmer; Charles E. Lewis of Minneapolis; Jacob Schreiner of St. Louis; John T. Milliken, St. Paul; H. E. Ricks of Chicago; Captain John Barrett, Chicago, and last but not least, Arthur Cutten, whose winnings are the biggest of all the speculators.

If rumor that is current on the Chicago Board of Trade be true, the bank accounts of J. Ogden Armour, Edward Lichstein and others have been somewhat depleted by playing May wheat for a big rise. By all hands it is conceded that Arthur Cutten is the big winner on the deal. Cutten was for some time connected with the office of A. Stamford White, former president of the Board of Trade. About six years ago he branched out on his own account. He has been uniformly successful ever since. On the Board of Trade he is known as a man who "plays the market" with rare good judgment and as a student of conditions he is in the same class as James A. Patten. Cutten was "short" on May wheat in large quantities at all times during the deal that has ended so disastrously for the "bull" element on the board.

The end of the deal is not in sight. There are none of the Board of Trade now who are predicting any rise in the price of the May commodity.

## BUSINESS BLOCK FOR RICHMOND

O. R. Ludwig to Begin Construction Work Within 30 Days.

RICHMOND, March 30.—The purchase of O. R. Ludwig of the corner of Richmond avenue and Park means another business building for Richmond. The sale was one of the important realty deals of last week. Ludwig will begin within thirty days the erection of a modern building.

Fourteen new residences were begun on the East Side during the last ten days. The first of these is the new J. O. Ford's \$5000 home on Montana avenue. The first story of the handsome new Armstrong apartments on Macdonald avenue, near Twenty-third street, is up.

The work of grading and paving Macdonald avenue from Twenty-third street on will probably begin next month. The old pottery at the Pullman side of Richmond has been turned into a small smelter under the new process by which fumes are eliminated.

There is being completed for Mrs. Lillian S. Berry of Berkeley a bungalow on Fourteenth street. Mrs. Berry has let the contracts for two two-story flats on her three lots on Eleventh street.

## DEFENDS PRESENT TARIFF ON WOOL

President of Great Combine Declares Free Trade Would Be Disastrous.

SAN FRANCISCO, March 30.—William M. Wood, president of the American Woolen Company, defended the present tariff on wool in an interview here yesterday. "The reduction of schedule K to the free trade basis," he said, "would close down the woolen mills and bring about the same condition of affairs in the textile industry as was created under the Wilson tariff. I do not believe the Democratic party will enact laws to disturb the labor in this great industry."

Mr. Wood spoke of the large number of people dependent upon the woolen mills of America, which numbered, he said, about 1200. He added: "Many people have an idea that owing to the special energy and skill of the American workmen, this industry could stand a free trade basis. This was tried under the Wilson bill with disastrous results. I believe the Democratic party will rise to the occasion and preserve this great industry."

## ABANDON AVIATION RACE FROM PARIS TO LONDON

BERLIN, March 30.—The projected international aviation race from Paris to Berlin, Brussels and London probably will be abandoned owing to the attitude of the Paris Journal, one of the papers contributing the prizes, yielding to the French agitation against flights in Germany. The Berliner Mittag-Zeitung will apply the \$25,000 which it offered for the event to another contest.

THURNHERR CASE  
IS CONTINUED

Prior to Trial Pressure Will Be Removed From Woman's Brain by Surgeons.

**THURNHERR CASE IS CONTINUED**

Prior to Trial Pressure Will Be Removed From Woman's Brain by Surgeons.

BERKELEY, March 30.—When the case of Mrs. Jean Thurnherr, charged with petty larceny and a prior offense, was called in Judge Edgar's court this afternoon for preliminary hearing, Attorney W. P. Gajjala, of counsel for the defendant, requested that the examination be continued until May 23.

The postponement was asked so that Dr. H. N. Rowell might perform an operation upon the skull for the removal of supposed pressure upon the brain, which is believed to be responsible for the girl's criminal acts. Dr. Rowell made a brief statement of the case for the defense.

It is probable that the operation will take place within a few days at Merritt hospital. Bail was reduced to \$500.

**RIDERLESS HORSE TELLS OF TRAGEDY**

Ranch Woman Follows Bloody Trail to Murdered Body of Man.

FRESNO, March 30.—Terrified by the appearance of a riderless horse covered with blood at her ranch home six miles from Kerman and fifteen miles west of this city, a French woman, name unknown, mounted another horse and rode swiftly to the San Joaquin river, a few miles distant, and the body of a Basque workman with a bullet hole through his brain.

The workman had started at 8 o'clock this morning from the ranch to bring back a bunch of cattle. Knowing that a fight had been done, the woman quickly called on a deputy sheriff at Kerman, Sheriff McSwain, District Attorney, Sheriff and Coroner Bean of Fresno, were notified and hastened to the scene. Officers are now on the track of the murderer.

**POLICEMAN CEINAR MAY FACE ANOTHER CHARGE**

SAN FRANCISCO, March 30.—Chief of Police Seymour was responsible for the statement today that Arthur Dawson of 1424 Sutter street had had his bail bond receipts forged and the \$20 it called for collected by another party. According to the police, Ceinar is responsible for this occurrence and another charge may be placed against him in this connection.

**JUDGES DISAGREE IN FOX MANDAMUS SUIT**

CINCINNATI, March 30.—The three judges from the Fourth district who are considering the George B. Cox mandamus and injunction suit were again behind closed doors in the circuit court today with a special officer on guard. Yesterday the judges were in conference about fourteen hours. It is said that there is a divided court on at least two points in the case.

How to Make  
Better Cough Syrup than  
You Can Buy

A Family Supply, Saving \$2 and  
Fully Guaranteed.

A full pint of cough syrup—as much as you could buy for \$2.50—can easily be made at home. You will find nothing that takes hold of an obstinate cough more quickly, usually ending it inside of 24 hours. Excellent, too, for whooping cough, sore throat, influenza, hoarseness and other throat troubles.

Mix 1 pint of granulated sugar with 1/2 pint of warm water and stir for 2 minutes. Put 25 ounces of Pinex (50 cents' worth) in a pint bottle; then add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

It is just laxative enough to help relieve a cough. Also stimulates the appetite, which is usually upset by a cough.

The effect of pine and sugar syrup on the inflamed membranes is well known. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in quinine and all the natural healing pine elements. Other preparations will not work in this formula.

The Pinex and Sugar Syrup recipe is now used by thousands of housewives throughout the United States and Canada. The plan has been initiated, but the old successful formula has never been equaled.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

Why Not?

A good, sensible Sewing Machine saves half the work.

It saves half the nerve force.

It saves half the eyesight.

It gives double the satisfaction.

Then why not get one?

We deal exclusively in Sewing Machines and everything connected with them.

Anne Tasker and Madame Sherry  
Wildly Welcomed by Oaklanders

CLEVER ACTRESS IS  
SEEN IN BRIGHT  
MUSICAL PLAY

New York Success Fills Macdonough to Capacity at Two Performances.

MISS ANNE TASKER, whose return to Oakland in Madame Sherry was occasion for a mighty welcome.

Ann Tasker has attained stardom. "We told you so."

Miss Tasker's art is absolutely unmarred by the traditions of musical comedy. Affectionate she has never possessed and insistent stage managers can not make her a present of it, though it be tied with red tape and a bow of bank notes. The thousand and two mannerisms that producers keep in stock for new-made stars, she was all kinds of kind of predictions made when the actress was a young girl. Those who have seen her in a place with the principal parts, those who have seen her in a meaning all their own when Ann Tasker made good. They followed her to New York, and the wise ones nodded their heads and said "wait." And now she returns with the rough edges rounded off by the file of experience and with every prophecy fulfilled.

**Climate Failed; Medicine Cured**

It has been abundantly shown that rest, fresh food and good air help many persons suffering from tuberculosis. But to be really honest, it must be admitted that the climate seldom more than "arrests." Something more is needed.

Eckman's Alternative is a medicine made for the cure of tuberculosis. It has cured this disease again and again. Often these cures have been effected where the surroundings were not ideal, where the patient was taken of the patient, where the patient was taken of the patient, where the patient was taken of the patient.

The facts—the evidence of cures that have been made—are interesting reading. A remarkable cure follows. Weldon, H. G. Gentlemen, I have been saved from a premature grave, and, feeling that I might benefit suffering humanity, I take pleasure in writing you a brief history of my sickness, which you are at liberty to use.

On December 13, 1905, I was taken with typhoid pneumonia. My lungs became very much affected; my sputum was extremely thick and yellow, and I was discharged. I was very much emaciated. My physician informed me that I must go to Colorado as quickly as possible. I left Texas June 1, and arrived in Canon City June 3, very feeble. After being there two weeks, my physician informed me that nothing could be done, as my case was hopeless. Three weeks later I returned home, weighing 125 pounds, the doctor having given me no assurance of reaching there alive.

On the 14th of July I began taking Eckman's wonderful remedy for Consumption, it being very highly recommended. To my surprise, I was able to eat and sleep well and can do any kind of work about my grain elevator. I have not an ache nor pain in my lungs, and feel well, strong and better. I would be glad if every person afflicted with Tuberculosis took Eckman's cure.

Signed, EDWARD H. WELDON.

Left-handed Victory  
For Women Teachers

NEW YORK, March 30.—Men teachers in the elementary schools of New York City appointed hereafter will receive two times as much as women. This means that the present salaries paid to men teachers will be cut about one-third in the cases of future appointees. This action by the Board of Education is regarded by the women teachers as a first step toward the complete equalization of the salaries of men and women teachers in all public schools of the city. The controversy over this question has been bitterly waged for several years.

JOHN C. WOLFRAM MISSING FROM HOME

Fearing that he has met with foul play, Mrs. A. J. Richards, residing at 824 Grove street, today reported to the police the disappearance of John C. Wolfram. The man rented a room at that address March 17. Little was seen of him by the Richards family, and on last Saturday he disappeared. The man is described as being 5 feet 10 inches tall, heavy build, brown eyes, dark hair and mustache, and a fair complexion. The police are making an effort to find the man.

U. OF C. WILL NOT ENTER SHOOT.

The University of California rifle team will not enter into the inter-collegiate shoot this year, owing to a recent ruling that the range in Strawberry canyon, which is used here, does not conform to the standard. The rifle team will, nevertheless, hold tryouts for the team Saturday. There will be firings at both 200 and 300 yards.

**JUSTICES PRAISE.**

But Madame Sherry; we almost forgot. It justifies the praise Gotham gave it—tuneless, brilliant, funny—all of them and almost anything else good that you can do it. It tells of the deception practiced by Edward Sherry upon his rich uncle, Theophilus, stilling in the old man the idea that he, Edward, is a descendant of a wife and two children. All this because the wealthy relative likes a home and deplorable race suicide.

When Uncle Theophilus suddenly appears on the scene with his niece Yvonne, Edward is forced to adopt a wife and two children. The spouse of his janitor, his fickle sweetheart and the son of the President of Yvonne, Edward is forced to adopt a wife and two children. The spouse of his janitor, his fickle sweetheart and the son of the President of Yvonne, Edward is forced to adopt a wife and two children. The spouse of his janitor, his fickle sweetheart and the son of the President of Yvonne, Edward is forced to adopt a wife and two children.

Oscar Figman, another Oakland favorite, is Theophilus. Figman is a natural comedian, and without his play carries his audience along in a tornado of merriment. Miss Cheridah Simpson, well known to the coast, gives to the heroine, wife of the janitor, a touch that is just enough to carry her work and keep the character away from the pitfall of caricature. Harry Benham as Edward Sherry, lacks only vigor. He has good looks, an excellent voice and a personality that is refreshing.

**Blakeley Dubs Hecker "Liar" and Coats Are Shed in Hurry.**

DENVER, March 30.—The short and ugly word was passed and coats were jerked off during a debate in the state senate today over a resolution to adjourn sine die April 22.

Senator Blakeley applied the word to Senator Hecker, who forthwith told his colleagues he "could lick him either here or outside." Senator Blakeley immediately cleared his desks for action by taking off his glasses and coat and moving the neutral zone outside the chamber doors. Senator Hecker, however, did not follow and Senators Adams, Napier and Tobin finally succeeded in bringing the irate statesman back into the Senate chamber.

Senator Hecker said he would apologize for his language, but Senator Blakeley refused to retract.

**OUTER HARBOR BILL FOR CHICAGO PASSES**

SPRINGFIELD, Ills., March 30.—Senator O'Connor's Chicago outer harbor bill was passed by the Senate today, 39 to 0. The bill gives Chicago power to construct, own, operate and lease an outer harbor.

Warning to Railroad Men.

Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroad work. Gov. E. Bell, 639 Third street, Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroad work left my kidneys in a terrible condition. There was a continual pain across my back and hips and my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley Kidney Pills and the first bottle made a wonderful improvement and four bottles cured me completely. Since being cured I have recommended Foley Kidney Pills to many of my railroad friends. Wishart's drug store, corner 10th and Washington Sts."

There is talk of tearing down the "First State Capitol Building."

LOS ANGELES, March 30.—One of the oldest landmarks in the city, commonly referred to by pioneers as the "First state capitol building in California," may be demolished soon for sanitary reasons by order of the city housing committee.

The building in question is an old adobe structure located at 16 Oliveras street, just north of the Plaza, and now is used as a rooming house and occupied by a score of Mexicans. It was an old house in 1847, when it was occupied by Commodore Sloat, who made it his headquarters while here. It also was occupied by General John C. Fremont, the pathfinder, and it was here that the first American flag was raised in Los Angeles.

In an official report to the city housing committee is the statement that the sanitary conditions in the house are not in accordance with the provisions of the city ordinances. More plumbing is urgently needed, but it is almost impossible to properly excavate for the work because of the old and crumbling walls, which have in danger of falling if they are undermined. The floors are of adobe and are laid directly on the ground, so that it is difficult to lay pipes beneath. The property is owned by the heirs to the Rimpau estate.

FOR YOUR HAIR

Here Are Facts We Want You to Prove at Our Risk.

Marvelous as it may seem, Rexall "99" Hair Tonic has grown hair on heads that were once bald. Of course, it is understood that in none of these cases were the hair roots dead nor had the scalp taken on a glazed, shiny appearance.

When the roots of the hair are entirely dead and the pores of the scalp glazed over, we do not believe that anything can restore hair growth.

When Rexall "99" Hair Tonic will do as above stated, it is not strange that we have such great faith in it, and that we claim it will prevent baldness when used in time. It acts scientifically, destroying the germs, which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed and will not gum nor permanently stain the hair.

We want you to get a bottle of Rexall "99" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair and in every way give entire satisfaction, simply come back and tell us and without question or formality we will hand back to you every penny you paid us for it.

Yes, we are our endorsement to Rexall "99" Hair Tonic and sell it on this guarantee, because we believe it is the best hair tonic ever discovered. It comes in two sizes, prices 50 cents and \$1.00. Remember, you can obtain it only at the Owl Drug Co., Inc., Tenth and Washington, Thirteenth and Broadway, Sixteenth and San Pablo.

**GIVE G.A.R. POST MOUNTMENT SITE**

Men Who Wore the Grey Extend Courtesy to Men Who Wore the Blue.

SPRINGFIELD, Mass., March 30.—Fifty years after the opening of the great struggle between South and North, the members of A. P. Hill Camp of Confederate Veterans of Petersburg, Va., have given to Massachusetts a plot of ground near that city for the erection of a monument to the Massachusetts soldiers who were killed in front of Petersburg. A. P. Hill Camp was entertained in Springfield last summer by E. A. Wilcox Post Grand Army of the Republic.

The site for the memorial belonged to the Crater Farm and is two miles from Petersburg. Crater Farm is so called because of the crater-shaped opening made when the men of the Forty-eighth Pennsylvania regiment tunneled from the "union picket line" under the confederate fortifications and hit the fort on April 3, 1865. A large number of confederate soldiers were buried alive when the explosion occurred and their remains are yet there.

TEACHERS OF SUNDAY SCHOOLS HOLD MEETING

"Hand-work in the Sunday School" was the subject of the address delivered by Miss Sadie Eastwood of Saratoga, N. Y., at a meeting held this afternoon under the auspices of the Oakland graded union in the primary room of the First Presbyterian church, Fourteenth and Franklin streets. W. C. Fennore of Chicago and several Sunday school teachers gave short addresses.

The annual state Sunday school convention will be held in Los Angeles, April 5, and will remain in session two days.

**Railroad and Telegraphers' Union Officials Dicker On New Scale.**

CHICAGO, March 30.—W. E. Park, general manager of the Illinois Central railroad; H. B. Perham of St. Louis, representing the telegraphers, and J. W. Miller, chairman of the Louisiana division of the Telegraphers' Union, conferred here today on the wage question. A strike is threatened on April 1 by the men, who ask an increase of 20 per cent in wages.

At a strike vote recently taken, 95 per cent of the telegraphers voted to go out unless there was a satisfactory increase granted.

## EARS OF POLICE ARE QUICKENED

**Formerly Deaf to Ragtime Airs Now Hear Soft Pedal Melodies.**

SAN FRANCISCO, March 30.—Police-men Thorup and De Bardeleben swooped down upon Dibble's resort on the Ocean Boulevard shortly after 2 o'clock this morning and hearing the strains of soft music, alternating with vigorous ragtime, decided that the ordinances of the police commission were being violated. Accordingly they arrested Andrew Dibble, the proprietor, and Sidney Brown, a musician, and both were booked at the city prison for violating the ordinance concerned.

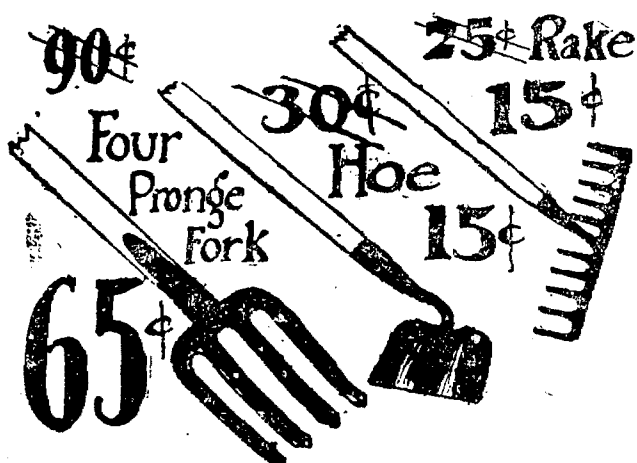

The raid was the result of the activity of the police, urged on by Chief Seymour's ultimatum that all violations of the law must cease, and that there must be no music or dancing in the resorts after 1 a. m.

PLACE YOUR BETS, MEN; CHILI GULCH IS AN OPEN TOWN

DR. F. F. JACKSON, Mayor of Chili Gulch.

Everything is in readiness for the grand opening of Chili Gulch township at Piedmont Pavilion tonight. The local lodge of the Loyal Order of Moose has been preparing for the big event for a number of weeks and last night when the lights were turned on a brilliant scene was witnessed.

"Main" street, on which are located the gambling houses, will be brightly illuminated with big arc lights in the roof. There will be crap games, faro bank, roulette, klondike and the big six game running "wide open." A corps of skilled gamekeepers will have charge of the play and the Chili Gulch currency which will sell at the rate of \$100 for one real dollar, is expected to go like wildfire.

There is an interesting story in connection with the gambling layouts secured for use at Chili Gulch. A committee appointed by the Moose called at the various gambling "joints" in San Francisco and asked for the use of their roulette tables and other apparatus.

The owners of the places refused to loan their paraphernalia and so the committee had to seek other sources. After a long hunt they discovered the "right man," who told them where there were a number of gambling tables in a certain basement. The committee went along and in a dark basement on Mission street found roulette tables, faro bank and crap layouts galore. These were speedily secured and they will be working full blast tonight.

The big parade will take place Saturday night from Fourth and Broadway, proceeding through the principal streets to the town of Chili Gulch.

Mayor F. F. Jackson issued the following proclamation this morning: "The town of Chili Gulch will open this evening and I invite all the loyal citizens of Oakland to be present. The camp will be conducted along the lines of an old time mining township of the days of '49, but I guarantee there will be no shooting. There will be saloons, but the worst the boys will get will be soft drinks. The gambling games will be run wide open and the 'sheriff' and constable will see that everything is conducted properly."

If welcome everyone to Chili Gulch this evening, tomorrow and Saturday."

**ROAD FACES SUITS FOR MORE THAN \$2,000,000**

DECATUR, Ala., March 30.—An additional suit, filed in this instance by the Canadian Bank of Commerce, creditor of the defendant, into the hands of Knight, Vance & Co., against the Louisville & Nashville railroad, brings the total amount of this class of litigation against the railroad company to more than \$2,000,000.

Practically all the suits filed by English, Italian and German creditors of the defendant cotton firm are aimed to recover from the railroad money paid on alleged fraudulent bills of lading and accused the railroad of connivance to defraud on worthless lading bills.

## STOMACH MISERY JUST VANISHES

Indigestion, Gas, Heartburn and Dyspepsia Go and You Will Feel Fine in Five Minutes.

As there is often some one in your family who suffers an attack of indigestion or some form of stomach trouble, why don't you keep some Disapepsin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort and overcome a sour, gassy stomach five minutes after it is taken. Tell your pharmacist to let you read the formula, plainly printed on these 50-cent cases of Pape's Disapepsin, then you will readily see why it makes indigestion, Sour Stomach, Heartburn and other distress go in five minutes, and relieves at once such miseries as Belching, Gas, Eructations of sour, undigested food, Nausea, Headaches, Dizziness, Constipation and other Stomach disorders.

Some folks have tried so long to find relief from indigestion and dyspepsia or an out-of-order stomach with the common, every-day cures advertised that they have about made up their minds that they have something else wrong or believe theirs is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

There is no doubt, is a serious mistake. Your real trouble is, what you eat does not digest. Instead, it ferments and sours, turns to acid, Gas and Stomach Poison, which putrefy in the digestive tract and intestine, and besides, poison the blood with noxious odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the Stomach, is waiting for you as soon as you decide to try Pape's Disapepsin.

## GIVES PLACE IN LINE TO COLONEL

**Roosevelt Stops Auto to Thank A. F. Page for His Courtesy.**

The following incident is told by A. F. Page, manager of the country land department of the Layman Real Estate company:

"On Saturday afternoon I happened to be coming from San Francisco in my machine. As you are all aware, the Southern Pacific company only allows four automobiles on a boat on a trip, and I occupied the fourth and last position. While I was waiting to drive on board, a gentleman came up to me and asked if I would mind letting him have my place, as he had Colonel Roosevelt in his machine and they had to get over on the other side in a hurry or the colonel would be unable to keep his appointment at the Greek Theater, where he was to lecture. I told him I certainly would consider it an honor to give up my place. As the car in which the colonel was sitting came up to take its place, Colonel Roosevelt stopped the car. Getting out, he came over to me and said he considered it a great favor—and he would not accept if he was not compelled to be on the other side shortly. I told him that it was a pleasure and an honor to be of service to him. That I was an Oaklander, and Oaklanders are glad and collectively, would consider it an honor to do him a favor. As he left me, he raised his hat and naturally I also raised mine."

"What struck me most was the fact that he was so courteous about the matter. Most men would have sat back and said, 'Oh, that's all right, I don't mind not having said a word, but he took the trouble to stop the car, step past a lady who sat beside him, and thank me in person.'"

## STAB SAILOR ON BARBARY COAST

**Jealousy Over Waitress Results in Row and Dangerous Wound.**

SAN FRANCISCO, March 30.—The jealousy of a husky sailor laid over a fair waitress whom he met in a Barbary Coast saloon, provoked a miniature riot in the resort at 614 Pacific street at midnight. Twenty men were concerned in the disturbance. There was a flash of steel and knives were drawn by a number of the participants. A frightened bartender ran for the police and when Officer Kerrigan and Ogden arrived they found a score of maddened specimens of humanity struggling in pell-mell disorder on the floor.

Diligent use of clubs and quick work resulted in putting the gang to rout, and when the atmosphere cleared it was found that Louis Sistrina, of the steamer Uarda, had received a severe stab wound in the region of the heart. No one could tell who had caused the injury, and the man was removed to the Harbor Hospital.

The surgeons found that the injury was four inches deep, but it is expected that he will recover.

## TRIFLING MISTKE ENDS IN IMPORTANT ARRESTS

SAN FRANCISCO, March 30.—A coming outfit and 189 bogus dollar pieces were found late last night in a room occupied by two men, who gave the names of Nicholas Schmidt and Peter Casper. The two were arrested on a charge of counterfeiting.

It was by a mere chance that the coins were discovered. A young man living in the same house was out the wrong room by mistake and, seeing stacks of dollar pieces in a suitcase, became suspicious.

Police officers say that the accused men have admitted trying to pass the spurious coin both in Los Angeles and here.

## OAKLAND'S BOYS AND GIRLS

## AEGISSHOW TO BRING OUT TALENT PRIZE IS AWARDED IN MARCHING CONTEST

MISS LILLIAN CAMPBELL, who will take part in the Girls' Aegis Show.

In an exciting contest between the drill corps of two classes in the Grant school the trophy for the best marching was awarded to the soldiers of Miss Stewart's class. It was removed from Miss Howard's room, where it was placed some weeks ago as a reward for superior drilling in the different contests. In a short address the cup was presented to the winners.

In the girls' contest, room 13 defeated room 15 by a close score.

The work is resulting in splendid marching throughout the school and the pupils are displaying interest in the drills.

The Live Wire Debating Society of the Grant school challenged a similar society in the Franklin school to debate April 6, in the Assembly hall of the school at 7:30. The following question has been selected: Resolved, That Free Text Books Should Be Maintained in the Public Schools of California.

The boys of the Franklin school were given choice of sides and took the affirmative. It will be represented by George Gray, Kenneth Kraft, Albert Ebbesen, Robert Evans and Carleton Dornes.

The Grant school orators who will argue upon the negative side of the question are Scott Nottingham, Ralph McIntyre, Quinto Maganini, Hascall Waterhouse and Harrison Ryker.

## HOMESTEADER SELLS DINOSAUR TRACKS

GRAND JUNCTION, Colo., March 30.—The Field museum, Chicago, has just purchased two dinosaur tracks.

Elmer Terrill, a homesteader in the big park country near here, owns a number of the footprints of the fearsome animals of long ago, and needing a little ready money, began dicker with the Chicago natural history institution for their sale. The museum agreed to take two tracks, at the price, it is said, of \$500 per track. Terrill did not own the land at the time the tracks were made in the sandstone formation, but since that time has acquired it.

Colorado college of Colorado Springs also took two tracks, exchanging therefore one course through school.

The tracks are now being removed and prepared for shipment.

## CANADA IS ATTRACTION FOR OLD WORLD PEOPLE

ANTWERP, March 30.—The diversion of European emigration from the United States to Canada is said to be seriously affecting the Atlantic steamship lines. The Red Star Line yesterday gave up to the American-Canadian Line two of the best special emigrant steamers adrift, the Rotterdam and Samland. These vessels, heretofore in the Antwerp-New York service, are now to be operated from Rotterdam to Canadian ports.

Eight hundred emigrants bound for Canada are held up here by a lack of transportation facilities. There is a proportionate decrease in the emigration to the United States.

# WOMEN IN THE NEWS CO-EDS IN NIGHTIES HAZED BY HORRID COLLEGE MEN

Boys of Washington Institution  
Pull Fair Ones From Bed  
at 2 a. m.

**P**ULLMAN, Wash., March 30.—College circles were greatly stirred up here Wednesday morning when it became known that four or five young men students in the Washington State College had invaded the girls' dormitory about 3 o'clock Tuesday morning and after pulling a number of the fair co-eds from their beds subjected them to what is known as the "rolling" treatment. The faculty is making an earnest effort to discover the guilty persons.

The young men secured access to the dormitory through a balcony window, and with the aid of a rope ladder two of them are alleged to have helped their mischievous friends inside. No sooner had they entered the dormitory than they began hauling girls from their beds to the floor, rolling them about in the bed clothes.

Mrs. Margaret Andrews, preceptress of Stevens hall, thinking the men burglars, fled precipitately crying for help. Her cries brought a night watchman, who arrived too late to get a look at the invaders.

**Lina Asks Divorce**  
NEW YORK, March 30.—According to a report received here from Paris, Lina Cavalleri, who has returned there from St. Petersburg, announced that she has instructed her Paris attorneys to begin an action for divorce against Robert W. Chanler.

The singer said that a financial settlement is under way and admitted that her husband was willing to give her a sum in the neighborhood of \$50,000, the exact amount being unsettled. She also announced that she had no intention of marrying Prince Dolgorouky or any one else. She said: "I have had enough of married life."

**Eloper Returns**  
WASHINGTON, March 30.—Mrs. Lorraine C. Graham, the chum of Miss Helen Taft and a frequent guest of the latter at the White House, has returned to Washington after her elopement and will take the place in Washington society to which her beauty, attainments and the wealth of her husband entitle her.

Miss Portner's mother and friends expected her to marry a New York millionaire who has been a persistent suitor for her hand. Miss Portner's family objected to the attentions of young Graham, although he is said to be a most estimable young man.

The young bride was chagrined when she learned that her elopement had become known.

"It was a love match," she said, naively, "and I supposed we could keep our marriage secret for a time. However, now that the cat is out of the bag, we shall go to Lakewood and visit mother."

**Society Seeks Bite**  
WASHINGTON, March 30.—Morning fishing is the latest fad of Washington's four hundred.

Young men and women of Washington are now flocking either to the Potomac or to the Potomac river, to take a canoe for bigger sport up the Potomac or go trouting in the beautiful stream which runs through Rock Creek Park.

Mr. and Mrs. Joseph Leiter, who are great anglers, are among the keenest devotees of the sport, and just recently returned from a long fishing and hunting trip in their house boat through Southern waters. Mr. and Mrs. Leiter prefer the deeper fishing in the Potomac river, and many mornings they may be seen steaming out to the middle of the stream in their launch, with Mrs. Leiter at the helm.

**Shot Answers Suit**  
MARTINEZ, March 30.—A few minutes after a deputy sheriff had left the home of Pasquale Angotti in Crockett after serving him with papers in a suit for divorce on the ground of failure to provide and cruelty, Angotti secured a revolver and shot himself fatally.

Angotti made the statement that he had been attacked by the relatives of his wife and, unable to further resist her violent temper, had taken this means of getting her out of the way. The Angottis have several children.

The suit was filed in the superior court of this county Tuesday afternoon. Mrs. Angotti is at present in the hospital in Crockett and the doctors hold out little hopes for her recovery.

**Mrs. Mackay Ill**  
NEW YORK, March 30.—The friends of Mrs. Clarence H. Mackay, famous for her active interest in school affairs and in the cause of woman's suffrage, were surprised to learn at the Mackay mansion at Roslyn, L. I., that she is confined to bed in her city house with grip. Information could not be obtained as to how long Mrs. Mackay has been ill or as to the seriousness of her ailment.

**Files Her Suit**  
BALTIMORE, March 30.—A cross bill for absolute divorce was filed in the circuit court here by Mrs. Emalee A. Emerson against Captain Isaac E. Emerson, charging desertion and abandonment. # SMILES AS HE ADJUSTS ROPE FOR THE HANGMAN

## HELPS TO PUT ON FATAL NOOSE

Murderer Refuses Aid and Runs Lightly Up Steps of Gallows.

"Good-bye All," He Calls and Waves Hand to 1500 Spectators.

POTTSVILLE, March 30.—A remarkable display of nerve was made in the county jail yard here today by Joseph Christcock, who was hanged for the murder last fall of Mrs. Ann Richards. Declining the proffered assistance of a priest and deputy sheriff, the man walked smilingly from his cell to the foot of the gallows and ran lightly up the steps.

It was a public hanging and before him stood 1500 persons to whom he waved his hand. Then he reached up, grasped the noose and placed it around his neck, put his arms by his side to be strapped and smilingly said:

"Good-bye, all."

The trap fell and he was dead in 12 minutes. Before going to the gallows Christcock made a confession, declaring he had shot the woman, when he was detected by her attempting to mistreat her daughter. He told of numerous highway robberies and burglaries he had committed in the neighborhood and wound up his confession by saying he deserved to be hanged for his crimes. He joked of death to the very end.

## Prohibit Jews From Taking Christian Names

Holy Synod of St. Petersburg Issues Edict Against the Hebrew Inhabitants.

ST. PETERSBURG, March 30.—The holy synod today issued an edict prohibiting Jews bearing Christian names. The holy governing synod of all the Russias is the highest ecclesiastical authority in the Russian church. Its chief procurator represents the emperor, who is the head of the church. The emperor has never claimed the right of deciding theological and dogmatic questions and the procurator enjoys wide powers in church matters. Because of the close relation of the government and church the holy synod has an influence amounting frequently to practical authority.

FILE INITIATIVE PETITIONS. BERKELEY, March 30.—Initiative petitions calling for the submission to popular vote of ordinances decreasing water, light and gas rates, were filed with City Clerk Seaborn yesterday afternoon. Seaborn will check up the signatures, to ascertain their sufficiency, and if the proceedings so far are found to be regular, the ordinances will be placed upon the ballots at the second municipal election, April 22.

## WATER PIPE ARRIVES FOR THE BAY CITIES COMPANY

Big Shipment for New Corporation Is Now Being Distributed Along the Lines of Supply

(From the San Francisco Examiner, March 30.)

Forty-three miles of castiron water-pipe now arriving in Oakland over the Western Pacific Railroad for the Bay Cities Water Company show that the fight between F. M. Smith and W. S. Tevis on one side, backed by the United Properties Company with its capitalization of \$200,000,000, and the Peoples Water Company on the other, of which Frank C. Havens is the head, is on in deadly earnest. Taken together with the recent announcement made by the Spring Valley Water Company that it is going to curtail every expense and concentrate upon the building of the Calaveras dam, in Alameda county, there is staged one of the greatest three-cornered battles probably ever witnessed in the country, in which immense wealth, the courts and many men will play a part.

### SPRING VALLEY IN FIGHT.

While the main fight is between F. M. or "Borax," Smith, and his one-time friend and intimate business associate, F. C. Havens, Spring Valley also has a grudge against the pretensions of Tevis in the Mount Hamilton region, and for this reason will hurry to completion its Calaveras dam in order to supply Havens with the water he needs for his consumers in Oakland, Berkeley and Alameda, and thus take Tevis' market from him and at the same time attack his right to draw water from a region claimed as tributary to the Alameda system of the Spring Valley Water Company.

Already the Bay Cities Water company has between 500 and 1000 men engaged, some of whom are at work tearing up the streets in the outskirts of East Oakland, and San Leandro's has been connected up with wells owned by Tevis at Broadmoor and Roberts Landing, and in that outpost the fight for consumers is already on between the rival concerns.

### BUILDING TWO DAMS.

It will, however, probably be a year before Smith and Tevis will be able to connect their main water supply, which is to be located in the vicinity of Mount Hamilton, with the pipes

about to be laid in Oakland and Alameda. They are now engaged in building two dams, one on the Isabel watershed, and the other on the Arroyo Valle watershed. When completed they will form two reservoirs, from which it is proposed to pipe the water with which to invade the territory heretofore supplied by the Peoples Water Company.

The pipe now being delivered is coming from Birmingham and Pittsburg and is piling up at various points most convenient to the territory in which it is needed. Altogether there will be about 400 carloads of all sizes, from 2 to 18-inch pipe. Of this amount 45 carloads are now at the Alameda pier awaiting distribution throughout the city. On vacant ground in East Oakland more is being stored, while a considerable quantity is being reshipped over the Southern Pacific tracks to San Jose, from where it will be taken to points along the pipe line right of way leading from the reservoirs in the mountains.

### FORMING BIG MERGER.

When the announcement was made of W. S. Tevis having gone, with his water properties in the Sierras and the Mount Hamilton region, into a consolidation of F. M. Smith's holdings of Key Route and Oakland Traction and other holdings, forming the merger known as the United Properties Company, capitalized at \$200,000, speculation was rife whether Tevis' aspirations to take a hand in the Alameda county water situation would be carried on. His Sierra properties, it was conceded, were to be utilized for power purposes and some day will probably supply the electric power for the Key Route and Oakland railroads.

The fact, however, that Smith had parted with all his interests in the Peoples Water Company to Havens lent color to the idea that Smith had retired from the water works field. The new developments point to the fact that he only retired in order to take on another partner and that the development of Tevis' water holdings will be one of the first big moves to be undertaken in carrying out the purposes of the United Properties Company was organized.

## COPPER RIVER RAILROAD FINISHED

Last Spike Driven in Alaskan Line, on Which Trains Will Soon Run.

Guggenheims Complete 197-Mile Road at a cost of \$20,000,000.

CORDOVA, Alaska, March 30.—The last spike completing the Copper River & Northwestern railroad between Cordova, on tide water, and Kennecott, where the Bonanza Copper mountain is situated, was driven today. Trains will be in operation over the entire line within two days, and the first ore will be shipped from Kennecott for the Tacoma smelter on Monday or Tuesday.

Work on the railroad, which is 197 miles long and cost \$20,000,000, was begun November 15, 1907, and has been continued steadily ever since with only such delays as the weather made necessary. The railroad is owned by the Alaskan Syndicate, popularly known as the Guggenheims-Morgan syndicate, which also owns the Alaska Steamship Company and copper mines. It was built with the object of developing the richly mineralized interior of Alaska and is projected to reach Fairbanks on the Yukon. When the main line is extended from the Chitina river to Fairbanks the line to Kennecott will be a branch. The Bering River coal fields are tributary to the line already constructed.

Construction of the road was one of the most remarkable engineering feats of modern times. It was necessary to bridge Copper river diagonally to avoid the huge Miles and Child's glaciers, which discharge on opposite sides of the river. Every bit of material for the road was shipped from Seattle. Notwithstanding that the roadbed for the greater part of the distance was blasted from solid rock, the loss of life was small. The winter just ended was so mild that construction was uninterrupted.

## ENTOMOLOGISTS TO MEET IN BERKELEY

The morning session tomorrow will be occupied by a business session and the appointment of committees, the opening discussion of the annual session opening at 1:30 o'clock in the afternoon.

BERKELEY GAINS \$30,000. BERKELEY, March 30.—The Benedict law recently passed by the state legislature will do away with the collection of the school census, according to a communication sent to the Berkeley school department by the state superintendent of public instruction. The new law gives Berkeley \$30,000 a year more for school needs.

## IS OAKLAND ASLEEP AT THE SWITCH? ASKS PASTOR

Untried Commission Form of Government Demands Excellent Officials, Declares Minister

(By REV. WILLIAM DAY SIMONDS, Pastor of the First Unitarian Church of Oakland.)

REV. WM. DAY SIMONDS, who urges voters to do their duty.

Is Oakland sleeping at the switch? The first nominating municipal election under the new charter is but three weeks distant, and the town seems as quiet as an August vacation. Do the people realize that honest and efficient municipal government is a most difficult achievement? The history of American cities is one long record of failure to secure and maintain clean and able administration of public affairs. But we have now, you say, a new system, the commission plan of government. Yes, a system hardly ten years old to date—a system not yet tried by the exigencies of political passion, or in the turbulent days of war—a system which confers upon five commissioners almost despotic power for a period of four years, subject only to direct restraint of the recall, of which more presently. Whether this system shall work good or evil to Oakland will depend in a very marked degree upon the character and caliber of the first Board of Commissioners. Never was it so essential to elect good and dependable men as at the coming spring election, and after April 19 the voter will be compelled to choose one of two candidates for each office. Now is the time to make sure that both candidates are clean men and strong. The old representative system of municipal government would have worked far better than it did if the people had not so often taken a sound "sleep at the switch." In the last analysis it is a question of men. This it is under all systems, and this it will be under the much-lauded commission plan. Mr. Voter, wake up, investigate candidates and then vote for the honor and prosperity of Oakland.

## What About the New Charter?

But what about the new charter? Is it not a most excellent instrument? Doubtless. But is the average citizen aware of the fact that it introduces a greater change in the system and science of municipal government than has occurred since the United States Constitution was adopted more than a century ago? The fifteen patriotic freeholders who prepared the charter and affixed thereto their names might fittingly have followed the custom of earnest Socialists and subscribed themselves, "Yours for the Revolution," so great is the change in the theory and practice of government effected by this same charter. Yet it has been adopted quickly, quietly and with less agitation than is occasioned by an ordinary presidential election.

The more need then that this radical change in municipal policy be made under the guidance of men in whose integrity and ability the people place full confidence. Once more I ask: "Is Oakland sleeping at the switch?"

## Recall Is Like Divorce

But there is the recall. The people can easily correct any mistakes they may make at the coming general municipal election. No friend, not easily. The recall in government is much like divorce in marriage; it is an unfortunate proposition, disastrous to the official recalled and harmful to the city. Witness the recent experience of Seattle. A most vindictive and bitter campaign waged for weeks to the great loss and harm of the legitimate interests of the city. It is a thousand times better to elect the right man at the start. Moreover, it is well to remember that while the recall will enable the people to get a bad man out, it will not endow them with wisdom to select unerringly a good and deserving successor. The recall is a kind of club over the official head, and "in extremis" a second chance to do what had best be well done in the first instance. It is not within the preachers' province—as a preacher—to advise in the selection of candidates. Ultimately more harm than good results from any attempt so to do, no matter how excellent the parson's motives may be. But it is wholly within my province to affirm that in the city of Oakland, at least during the next six weeks, each man's citizenship should be to him a religion—sacred and compelling. Never was the voters' duty to cast his ballot for "good men and true" more absolutely in evidence than now. It is no mere pulpit phrase to say that "now is the day of salvation," for that is for us the exact fact.

"Is Oakland sleeping at the switch?"

## GIVE LIE TO CAMORRIST INFORMER

Accused Assassins Make Very Strenuous Attempt to Impugn Abbate-maggio.

The Anonymous Letter Again Blames Carabineers for False Evidence.

VITERBO, March 30.—Gennaro Abbate-maggio, the informer, was cross-examined at today's sitting of the court of the assizes, which is trying the thirty-six Camorrist for the murder of their treacherous assistants, Gennaro Cuocolo and his wife.

Most of the questions asked by President Bianchi and the lawyers of the defense concerned matters of secondary importance and were intended to impugn the informer.

The latter stood the ordeal very well, making many admissions concerning his own evil career, but clinging tenaciously to the story of Camorrist crimes which he originally told to the police spy, Marshal Capozzuti, and later submitted in the form of an affidavit to the court.

Lawyer Torre of counsel for the defense, today received an anonymous letter in which the writer attempted to prove what has been asserted before by the other prisoners, that the carabineers who ran down the Camorrist had manufactured the Cuocolo ring evidence.

### BRAND EVIDENCE LIE.

According to the police the ring had been taken from the hand of Cuocolo to be sent to Luigi Arena, in proof of the death of the man whom Arena had denounced as a traitor to the Camorrist. The carabineers swore that they found this ring at the home of a woman companion of the assassins.

As proof that this evidence was fabricated, the writer of the letter states that Litterio, a carabineer of the Legion of Naples, being offended, boxed the ears of his superior officer, whereupon instead of being court-martialed, he was sent to a hospital, as he had threatened that if he were punished he would reveal the duplicity of the officers of the Legion. Subsequently the letter states Litterio was declared insane and removed from the army.

In the questioning counsel for the prisoners attempted to bring out that Abbate-maggio was in the pay of the carabineers.

"Does your wife receive money from the carabineers?" was asked.

"She does not."

### SOLD HIS HORSES.

"How is it then, that she lives so comfortably while you are a prisoner?"

"She lives," replied the witness, "on what I left her when I was imprisoned and on what she has since secured through the sale of our three horses and their milk."

The informer's attorney denied that he had received anything from carabineers, either for himself or for the support of his family. At the request of the lawyers Abbate-maggio gave a vivid and thorough description of the examination to which those aspiring to the throne of the Camorra submit. The candidates who passed through the ordeal successfully, proving their courage, capability and trustworthiness were finally passed upon by a special tribunal which accepted or rejected them.

### MANY NEAR DEATH WHEN WALL CRASHES

Several men at work on the second, third and fourth floors had narrow escapes from instant death.

The library is a memorial to William Rainey Harper, late president of the University of Chicago, and is being erected at a cost of \$900,000, the greater part of which will be donated by John D. Rockefeller. The dedication, which had been set for next June, on account of the accident, will be postponed three months.

Their Cause.

The "Judeans, Inc.," an organization composed of the Jewish men of Oakland, held a meeting at their new club rooms, 1170 Webster street, last night, when they were addressed by a number of the candidates for election at the coming primaries, April 18. The candidates were present on invitation to speak of their own platforms and to give their views on the new City Charter and other questions of the day, and all political points of view were represented. E. Sherry, president of the organization, was chairman of the evening, and introduced Dr. F. F. Jackson, candidate for mayor, as the first speaker of the evening. ## MARRIED MAN'S VOW NOT GOOD

Artie K. Bancroft Loses Her  
Suit for \$50,000 for Heart  
Balm.

SAN FRANCISCO, March 30.—Artie K. Bancroft's \$50,000 breach of promise suit against Frank Thompson, a millionaire, came to naught yesterday when Judge Murphy sustained Thompson's demurrer on the ground that as Thompson was married a promise by him to wed was not binding.

According to Miss Bancroft's complaint Thompson promised in September, 1909, to marry her two days after Ella Gertrude Thompson should obtain a final decree of divorce. This decree was issued on May 31, 1910.

Then Miss Bancroft says she reminded Thompson of his promise, but he repeatedly refused to marry her. She filed her suit on July 23.

The Bancroft woman had a rival for Thompson's hand in the person of Clement Bordenave. Many exciting encounters were enacted in the night life resorts between the women.

Thompson came into a \$1,000,000 fortune at the death of his father, R. R. Thompson of Oregon.

## WOMAN SCORES EQUAL RIGHTS

Many Suffragettes Hear Miss  
Cousins Speak in National  
Capitol.

SPRINGFIELD, Ill., March 30.—Snapping eyes and an indignant toss of the head from time to time evidenced the displeasure of Mrs. Catherine Vaughn McCulloch, Mrs. Harriet Grim and other suffragette leaders, as they listened to the address of Miss Phoebe Cousins of Washington, D. C., in the hall of representatives today.

In language keenly sarcastic Miss Cousins exhortated equal rights and votes for women. Her address was the first important one against woman suffrage by a woman. Women suffragette leaders were present when Miss Cousins began speaking. In a short time the galleries and lobby of the main floor of the house were filled with a female gathering. Practically the entire house membership heard the speech.

Mrs. McCulloch and Miss Grim occupied seats upon the floor in front of the speakers' stand. Both busied themselves taking extensive notes. At the conclusion of her speech Miss Cousins left the house without meeting any of the suffragettes.

In the first of these raids yesterday, nearly half a ton of candies was seized and condemned. The sanitary code prohibits the selling of fruits, candies and other perishable food-stuffs, which are unsuitably protected from flies, dust and dirt.

## ONE FUNERAL FOR 143 FIRE VICTIMS

More Than 150,000 to Attend;  
Recital of Horror Sends  
30 to Hospital.

NEW YORK, March 30.—Thirty women were removed late last night from a memorial mass meeting for the victims of the Washington place fire in Grand Central palace, suffering so terribly from hysteria that ambulance surgeons were called to attend them and to remove some to the hospital.

More than 3000 persons were present, mostly women, whose nerves were unstrung by the recital which some of the speakers made of Saturday's fire horror. The meeting was held by the Shirtwaist and Dressmakers' Union.

Arrangements for a funeral demonstration in which 150,000 sympathizers will be asked to join; identification of four more bodies, leaving but 16 now unidentified; the swelling of the relief fund to nearly \$50,000, and the effort of the district attorney's office and of the fire marshal to fix the blame for the catastrophe, were activities which followed Saturday's fire horror today.

It is proposed to take the bodies of most of the 143 victims through streets Monday in a great funeral procession, headed by a chorus of 70 singers from the Jewish Chorists' Union, followed by the 600 surviving employees of the Triangle Waist Company.

## HAPPY RESULTS

Have Made Many Oakland  
Residents Enthusiastic.

No wonder scores of Oakland citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Oakland by Doan's Kidney Pills.

Francis John House, 1306 E. Eleventh street, Oakland, Cal., says: "I can vouch for the correctness of the public statement given by a member of my family in August, 1907, in praise of Doan's Kidney Pills. This remedy was first brought to our notice many years ago and learning of its great value in kidney complaint, a member of our family who suffered severely from this trouble, used it. In this case Doan's Kidney Pills acted promptly and effectively, and the difficulties that had caused so much distress, were removed. At this time I can say that there has been no recurrence of kidney trouble and the member of our family who used Doan's Kidney Pills still holds them in high esteem."

**ATTORNEYS SEEK TO RECOVER FEES**

Petition Filed by the Lawyers Representing Heir to J. A. Yoell Estate.

SAN FRANCISCO, March 30.—A petition was filed yesterday in the probate department of the Superior Court to recover attorney's fees for the lawyers who represented Evalaine A. Levy, daughter of the late J. Alexander Yoell and administratrix of his estate.

Governor Hiram W. Johnson is one of the attorneys who asks for his share of \$15,000 which is claimed to be due from Mrs. Levy. He was associated with Carl Westerfield in handling the Yoell estate for some months following the fire.

D. M. Delmas and Westerfield had charge of the affairs of the estate before the fire. For Delmas' share \$2,500 is asked. Attorneys Matt Sullivan and Walter Linforth signed the petition as appraisers of the value of the legal work done by Johnson and Westerfield. Sullivan estimated it at \$5,730 and Linforth at \$15,000. The matter will be heard by Judge Graham on April 10.

**THORNTON COMES OUT INTO LIGHT**

"Suicide" Reappears When Police Find His Dog; He Explains Actions.

LOS ANGELES, March 30.—Louis L. Thornton, who disappeared several days ago after identifying the body of a suicide as that of his own, reappeared yesterday at San Pedro to claim a lost dog which the police had recovered for him. It was by his anxiety to recover the dog that the police first learned the dead man was not Thornton.

In response to the demand of the police for an explanation of his conduct, Thornton offered the excuse that the undertaker had mixed the addresses he gave him.

Thornton's wife resides in Oakland and in an interview with her printed here concerning her husband's recent action, quotes her as saying she believed he had the intention of going to the Philippines, where he formerly served in the army. Thornton said the dead man did "look like a fellow I knew." The identity of the suicide still remains a mystery.

**A SIZE-UP OF NEW YORK CITY**

Ware Clergyman Advances a Trite Observation of Life in Metropolis.

NEW YORK, March 30.—The Rev. R. D. Sawyer of Ware, Mass., has just paid his first visit to New York City. He came with the avowed intention of spending a fortnight's vacation in "observing and philosophizing."

The result of his observations is thus set forth in a "statement to New Yorkers."

"You New Yorkers are a people of paradoxes; you spend time on tying the ties, fixing the hair, the hat, the raiment, as though it were New York custom to look every person carefully over, and when you go out looking neither right nor left, being careful to observe nobody, and you know nobody will observe you."

"In your subway you run, crowd, jostle to get the express, you crowd in and stand up for a ride of five miles—all to save five minutes, and you lounge away a half hour at the end, for you really have no reason to hurry."

"You are lean, hungry-faced. You go to the theater as one would be expected to go to a funeral. You take your pleasures as seriously as a high school boy takes his Greek, never find the intertwined arms, the saunter, the mirth among you, even when you are off duty."

"The only great thing I find in New York is your engineering. The great thing about New York is the city, not the people."

"This great city is so lonely among these millions; there is so little fellowship and sympathy in the midst of all this wealth; you are all so poor, with so many labor-saving devices; you all work so hard, with this great possibility of knowledge; you know so little. With such splendid chances at life you merely exist; with a chance to fly, you merely crawl."

**PERKINS DEPLORES SINKING OF TEXAS**

Senator Asks Meyer to Explain Destruction of the Big Ship.

WASHINGTON, March 30.—Senator Perkins of California, chairman of the Senate committee on naval affairs, is taking Secretary Meyer to task about the destruction of the old battleship Texas in target practice. The spirit of co-operation is strong between these dominating factors in the country's naval business, but in this instance Meyer may be in for a chiding.

In a letter received at the department from the senator, the secretary is asked to write out his views in justification of the shooting up of a war craft that cost \$4,000,000 and which, despite her age of twenty years, might have been put to some service in coast defense.

Perkins' letter is a friendly quest for information, but at the same time he indicates that the superb target work might be as successfully developed on an old hulk, suitably fixed up with armor, that did not represent so much money to the government. The senator expresses the opinion that ships twenty years old are not necessarily ready for sinking.

Secretary Meyer must explain and he will do so at the same time he does not make good, a more economical method will, in all probability, be imposed for developing expert marksmanship.

**INQUIRY INTO STEAMER'S LOSS**

Investigation Ordered by Canadian Government Opens Tomorrow.

VICTORIA, B. C., March 30.—A public inquiry concerning the loss of the steamer Sechelt with all on board off Beecher bay last Friday, has been ordered from Ottawa by Captain C. Eadie, of Vancouver, inspector of masters and mates, will begin the inquiry tomorrow. The name of another victim, Arthur Morley, 37 years of age, a rancher of Jordan River, was learned today, making a total of eleven known dead, including six of the Sechelt's crew. Morley was seen on board the Sechelt just before she left the dock, by I. D. Barnard, of the Michigan shanty, which company, who had intended taking passage on the steamer for Sooke, but Morley took papers to Sooke for him.

More wreckage was found today, but no more bodies of victims have been found.

**CANNON'S SON-IN-LAW DODGES INDICTMENTS**

DANVILLE, Ill., March 30.—E. K. Lesueur, son-in-law of former Speaker Cannon, has left for New York for an extended European trip. Lesueur, who made a fortune out of the local street railway system and who is now president of the Danville National Bank, "skipped" when he found the vote-probe grand jury meant business. His indictment on a perjury charge is scheduled as one of the most pressing matters before the grand jury, which resumes action on April 17. Mrs. Lesueur left Danville to join her husband in Europe. She said they would be gone indefinitely.

**AVIATOR HAMILTON NEAR DEATH IN AUTO CRASH**

NEW BRITAIN, Conn., March 30.—Charles K. Hamilton, the aviator, figured in a collision between his new auto, purchased this week upon his return from Mexico, and an electric train three miles from this city. Hamilton's wife and mother had a narrow escape from death. The train tore off both wheels on one side of the car and left it a wreck on top of a gateman's shanty, which was overturned when the auto struck it. Hamilton was in Hartford in the afternoon yesterday and was on his way to his home here when the accident occurred. Mrs. J. B. Beaudette, Hamilton's mother, occupied a place on the front seat with the aviator, and his wife was alone in the rear. None of the party was injured.

### BIG FIRE RECALLED BY SAFE CO. SUIT

Superior Judge John Ellsworth was occupied today with the suit of the Safe Company against Mrs. Annie L. Silveria to determine the title to a fire-proof safe and responsibility for its damage when sold on the installment plan. Mrs. Silveria claims that the safe, which went through the big fire in San Francisco, proved not to be fire-proof and that she lost something like \$3500 worth of jewelry as a result, for which loss she asks judgment.

This forenoon a witness for the safe people testified that after the fire, when the safe was opened, a large number of Mrs. Silveria's private papers and letters and a piece of velvet were found in the safe and that none of them were damaged either by heat, fire or smoke. He said no jewelry was found.

Mrs. Silveria runs a jewelry store in San Francisco.

ALBANY, N. Y., March 30.—The work of rehabilitating the fire-swept State capitol, begun yesterday while the flames were still crackling in the western wing, was continued today with increasing vigor. First efforts were directed to drying out the portions of the great building untouched by the fire, but soaked by water. Today the legislative leaders are expected to confer with Governor Dix and State Architect Ware regarding the appropriation necessary to repair the building.

The State architect has recommended that the legislature authorize immediately the preparation of plans for rebuilding the ruined third and fourth floors in the west end. Inauguration of the Magnificent New Music Amphitheater at the

## GRAND OPENING of IDORA PARK

Next Saturday and Sunday (April 1st and 2d)

### WHO IS DON PHILIPPINI?

Philippini is one of the few great band leaders who ever visited the West. He is the only band master who was ever awarded the GOLD MEDAL two consecutive years—1909 and 1910—at the celebrated Electric Park in Kansas City. He carries a band of over fifty people, and Idora Park has been trying to get an engagement with him for several seasons, but without success, until now. We consider him to be one of the biggest attractions we ever presented to the music-lovers of the bay counties.

### WHAT IS THIS NEW AMPHITHEATER

It is an outdoor structure arranged for band concerts at a cost of \$20,000. It faces the restaurant, has a seating capacity of 5000 and is entirely surrounded by a magnificent elevated board walk costing \$30,000. Our object in building it was to protect our audiences from the cold and to enable them to hear the music to greater advantage. We are pleased to say that it is a complete success.

Come Both Days---Bring the Children Saturday

See the greatest show for a dime ever given in any Amusement Park in America. See a crowd of 80,000 people assembled for a day of joy without jam or jostle. Room galore. Amphitheater accommodates 5000. New Board Walk holds 10,000. Ground capacity 120,000. Oceans of fun for everybody. Idora is the most picturesque pleasure park in America today. Already a feature of Central California; ultimately a wonder of the West. This will be the greatest season in all our history. Come Opening Day. Come Every Day.
